GREENS AERATOR

Speed, weight and price were the main considerations when Classen designed its Greens-Pluggers aerators for golf courses. Superintendents can aerate up to 13,000 square feet per hour to a three-inch depth and a two-by-two-inch pattern with the Model 450 walk-behind unit. An eight horsepower Honda OHV engine powers the 24-inch-wide, 460-pound aerator.

Larger areas can be aerated efficiently with the PTO-powered Model 800-24. The pattern of the 48-inch-wide aerator is adjustable from two-by-four-inch spacing to two-by-one-inch spacing. Up to 50,000 square feet of turf can be aerated per hour at the wider spacing.

Both models feature low-maintenance components and design. Four sizes of tines, ranging from 1/4 inch to 3/4 inch are available.

Call today for a free brochure. (303) 790-2708.

HIGH READERSHIP

The classified section of SportsTURF magazine will be read by thousands of stadium managers, park superintendents, golf course superintendents, resort grounds managers, and university field supervisors.

Attn: Small Landscapers... the T-50 HydroSeeder® means business.

The Finn T-50 yields a top-notch finished job in less time and with less manpower than any other comparable machine on the market. Mixing, suspending and spraying of heavier concentrations of seed, fertilizers, lime and fiber mulches makes the T-50 a real profit workhorse. Your profits will increase because of the terrific cost savings in time and labor. Before you know it, you'll be competing with the big guys...

T50 HYDROSEEDER®

Just look at all these benefits:

- Coverage of 6,000 to 7,000 square feet per tank load
- Economical, one man operation
- Variable speed, reversible, hydraulic motor driven agitator
- Option of diesel power for added operating economy
