

**CHOOSE THE
TURF TEAM WITH
THE BETTER GAME PLAN**

**LEBANON PREMIUM FERTILIZERS
AND TEAM™ CRABGRASS PREVENTER...
AN ALL-STAR TEAM YOU CAN
WIN WITH EVERYTIME**

Lebanon premium fertilizers with Team™ have the defensive strength of benefin and trifluralin, yet they're gentle on your turf. The combination of these proven herbicides kills the seeds of annual bluegrass, smooth and hairy crabgrass, goosegrass, as well as green and yellow foxtail—as they germinate. And our premium quality fertilizers strengthen Northern or Southern turfgrasses.

Pick the right team for you.

You can select the winning Team™ combination that meets your game plan. Choose from our standard line-up, such as **Lebanon Country Club 19-4-6 with Team™ Crabgrass Preventer**, or give us your preferred fertilizer analysis and we will custom blend it with Team™ for you.

Together, one application of **Lebanon** fertilizer with Team™ will give you a winning season against crabgrass and other annual weeds.

For more information on **Lebanon** premium fertilizers with Team™, call our **Greenline** today at 1-800-233-0628, in Pennsylvania, call 717-273-1687. And start getting help with your game plan against crabgrass and goosegrass... from the ground up.
