Locke makes the cut ...

**at the finest
playing fields
around the world.**

Locke Single

Locke Triplex

Locke Professional

On baseball, football, soccer fields and golf courses, Locke's cutting edge, a unique scissor action, produces a clean and uniform cut unmatched by the competition. While other mowers shatter or shear the grass, Locke reel mowers actually cut each blade of grass cleanly and consistently. The result is a uniform playing surface that maintains its healthy, green appearance and helps improve the quality of play.

Constructed from forged steel frames, machined cast-iron components and precision carbon steel blades, Locke mowers have been proven season after season. Powered by durable cast-iron engines, Locke mowers are built to last more than 20 years. So make your next cut with a Locke... Choose from the *Locke Single*, when maneuverability is crucial on smaller grounds; the *Locke Triplex*, setting the standard for commercial mower performance, quality and durability for over fifty years; or, a riding mower, the *Locke Professional*, is ideal for the larger sports turf grounds.

For the name of your nearest authorized dealer, contact Locke today.

THE LOCKE CUT VS. A TYPICAL MOWER CUT

Each blade of grass is cut evenly and at a uniform height, which means healthier, greener turf.

Other mowers shatter the blades of grass, leaving uneven ragged ends which turn brown and expose the turf to disease.
