

AQUAPORE

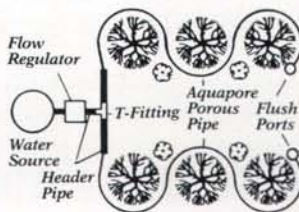

Choose the subsurface irrigation system that leaves your designs unspoiled by unsightly, vandal-ridden sprinkler heads and bubblers. Choose Aquapore! Eliminate callbacks and replacement plantings from improper watering and stressful wet/dry cycles. Choose Aquapore!

Aquapore's patented, rubber and polyethylene pipe is porous and flexible, featuring a unique weeping action that dispenses water and fertilizers uniformly to the root zone. It reduces water consumption as much as 50 percent—important to

drought-plagued areas; and because there's no runoff, liability risks are minimal.

Choose an irrigation system that's simple to install, even for your sophisticated layouts; one that saves you time and money. Choose Aquapore! Select a system that's ideally suited for any commercial or residential situation—your options are limitless! Choose Aquapore!

Now that you've chosen Aquapore, write or call us for detailed information about the Aquapore system and the name of our nearest distributor.

What's Your Net Worth?

...a question for the users of netted mulch blankets

Is it worth the aggravation, costs of down time, and repair to mowing equipment?

USE PROSEED PS100 TO IMPROVE YOUR BOTTOM LINE!

PS100 is the only completely biodegradable mulch blanket on the market today. PS100 contains no netting... instead, the fibers of the blanket are bonded with a high strength, flexible adhesive, resulting in superior erosion control capabilities.

So whether your final landscape plans call for grasses, legumes, wildflowers or ornamental plants...

We've Gotcha Covered!
