

Generate
Rich Green
Color
Without
Generating
EXTRA
Clippings

Now you can have rich, dark green grass, even when close cut, without using extra fertilizer and creating extra clippings. Major PGA Tournament course superintendents, athletic field managers and lawn service companies everywhere are using Multigreen to generate healthy, dark green grass without the yellow color commonly seen in heavily fertilized, close cut grasses. Multigreen is a chemically chelated iron and micro-nutrient product using natural sugars as the chelating agent. Results are fast and dramatic on all types of grasses.

ROOKIES

PRODUCT UPDATE

CORE DESTROYER

In one pass, aeration cores are pulverized and turned into topdressing with the Core Destroyer attachment for the Cushman Front Line tractor. The attachment can cover more than 2 1/2 acres in one hour at a tractor speed of five mph.

Two 30-inch-wide reels with steel flail tines are powered by a hydraulic pump connected to the tractor's PTO shaft. Tine depth can be adjusted from one inch above the surface for pulverizing to 3/4 inch below for

verticutting. Tine spacing is also adjustable.

Flexible mounting links for the reels permit the operator to pulverize cores over uneven terrain or berms without scalping. A bedknife-type mulching bar and front deflector on each reel ensure full destruction of cores in one pass.

All adjustments can be made without the use of tools, including pitching the heads up for clean out.

CLASSIFIEDS

CLASSIFIED ADVERTISING RATES: \$45.00 per inch payable in advance. One inch minimum. There are about 50 words per inch. Send copy with check for \$45.00 at least four weeks prior to issue date to: Classifieds, sportsTURF magazine, P.O. Box 8420, Van Nuys, CA 91409. Blind box numbers are available. Special borders and rules will be billed at display advertising rates. Classified ads are not commissionable.

SPORTSFIELD DESIGN, RENOVATION, AND CONSTRUCTION

Whatever your sport, whatever the level of play, and wherever the location, Sportsfield, Inc., can provide all the services required to meet your needs. Our team of experienced personnel can design, renovate or construct your playing fields. Do it right the first time! Call or write for our brochure, P.O. Box 615, Blue Island, IL 60406, (312) 371-0917.

DRAINAGE PROBLEMS?

Don't rebuild your sports fields. The Verti-Groove is an inexpensive alternative to improve drainage. Deep aerify and create sand slices six inches deep and one half inch wide without materially disturbing play. Call or write to:
