Do Not Read This!

Providing you have time and seed to waste.

But if you've read thus far, then give us a call or write for information on our pregermination systems. We provide the equipment (4 models) and technical information that will allow you to pregerminate turfgrasses on your own.

Pregermination can provide increased yields, reduced erosion, accelerated establishment, as well as reduced time, cost, and more. (Why would anyone wait the normal time for seed to sprout?)

2095 Euler • Brighton, MI 48116
