## PRODUCT UPDATE

### **PATH GUIDES**

Markers, Inc., has introduced Path Minders, a new series of products to help control golf course traffic. The series features two styles of plastic posts for roping off areas and a road bump to gently remind drivers to keep the cart on the path.

The posts are designed for temporary and permanent use. The spiked style is ideal for temporary use (i.e., ground under repair) while the retractable post and ground socket style is best suited for more permanent applications (i.e., along cart paths, in front of greens). Both styles feature a unique ring clip to easily thread rope through and are available in 12-inch and 30-inch lengths in red, white, yellow, and green.

The road bump is the marker cap with a six-inch spike designed to be installed along cart paths as a gentle reminder to the driver to stay on the path. They are available in five colors: red, white, yellow, green, and blue.

The Path Minders Series products are attractive, tough, weather-resistant plastic, easy to install, with maintenance-free use, and designed to save you money.

### **SPRAYER**

Cushman's 240-gallon turf sprayer is designed for fifth wheel attachment to the Cushman Turf-Truckster.

The sprayer offers golf course superintendents and turf managers increased capacity for turf spraying applications, along with a ground pressure of 11 psi and good maneuverability.

The sprayer attaches to the vehicle with a two-ball hitch. The truckster must be equipped with a quick-hitch and power take-off accessory for operating the sprayer pump.

Other features of the sprayer include a ground speed governor, tubular steel frame, electric brakes, jack stand and an access ramp. Operation of three spray booms is controlled from the operator's seat. A computerized controller is optional for fully automated spraying.

### **HOT SEASON FERTILIZER**

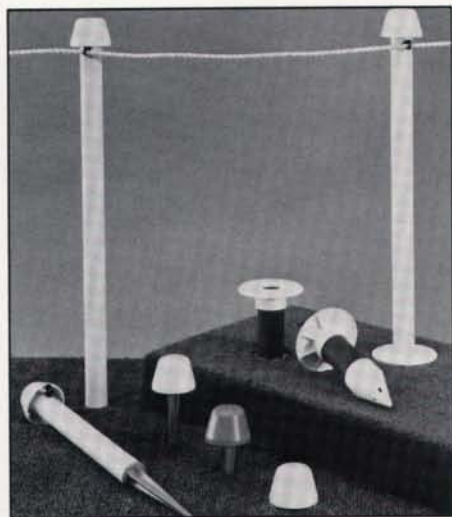

Summer Stress 5-2-10 natural fertilizer can be applied under hot and dry summer conditions. Its special formulation makes it ideal for use on most sensitive turf grasses during summer heat stress.

The product's natural ingredients include feather meal, soybean meal, sunflower seed hull ash, bone meal, wheat germ, and iron phosphate citrate—with fully chelated iron.

#### **RINGER CORPORATION**

### **HOT AIR WELDER**

The Leister Ghibli uses hot air at very precise temperatures to weld, bend, or shape all kinds of plastic. Temperatures are adjusted electronically to accommodate other uses such as removing paint, de-icing, soldering, desoldering, and drying.

The required temperature is reached in three minutes and remains constant despite the type of nozzle being used, fluctuation in voltage, or changes in airflow.

### **IMPROVED MOWER**

The Gravely Pro Master 30H front-mount commercial mower, a 30-hp diesel unit, has been reworked in several areas to enhance performance, serviceability, and user convenience.

The mower will have a redesigned drive system, a heavier steering system, a larger, heavier-duty battery for winter start-ups, more grease fittings for easier service, and a brake lock to enable easy wheel locking for transport.

Gravely has also introduced a 72-inch rear discharge mower for the Pro Master 30H. Also available for the unit are 72- and 60-inch side-discharge decks. The mower is powered by a 30-hp Yanmar diesel engine and Sunstrand hydrostatic transmission.

## PRODUCT UPDATE

### FIELD COVERS

DuraShield reinforced woven polyethylene is strong yet lightweight for quick field

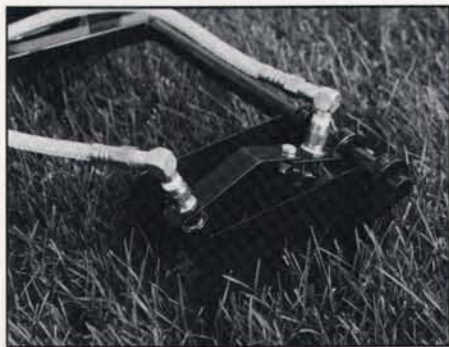

cover up. It is UV-stabilized for long life and can be fabricated into any shape or size up to 300-x-300 feet.

**THOR ENTERPRISES, INC.**  
Circle 138 on Postage Free Card

across the field. It can be used with the Pioneer Brite Striper 2000, 1500, and 1400 models.

**PIONEER**  
Circle 139 on Postage Free Card

### TWO-HEAD SPRAYER

Pioneer's two-head sprayer paints both sides of the grass blades in a single trip

### MOWER/SWEEPER

The M-C Lawn Genie Flail Pickup Mower/Sweeper vacuum action lifts clippings, leaves, pine needles, cones, twigs, cans, and other debris up into its dump hopper. The machine cleans up the cores generated by core aerating machines. It will pulverize the cores, letting the dirt return to the ground while the vacuum action picks up the grass and thatch. It is available in 72-, 60-, and 48-inch PTO driven models and 48-inch and 36-inch engine driven models.

## C-LOC® The Fore-Ward Looking Solution for Golf Course Landscape Problems

Control erosion in sand traps, water hazards and other fragile areas

Build up low spots, expand tee areas

Use C-Loc to create golf cart paths over drainage ditches

Now there's a simple, economical, beautiful way to improve any golf course.

**Introducing C-Loc®:** the all purpose landscape problem solver. Made from weather resistant, heavy-duty extruded PVC plastic, C-Loc's interlocking panels are lightweight, durable and easy to work with. They're also incredibly versatile, designed to solve a host of typical golf course flaws ranging from low spots and drainage-ditch interference to sand and water erosion.

#### C-Loc: A Superior System, Any Way You Look at It

**Simple Installation**—Installs quickly and easily with just a jackhammer or sledgehammer

**Economical**—Cost less to buy; no heavy construction equipment required with conventional installation

**Durable**—Used successfully for years in seawall applications

**Maintenance-Free**—No unsightly rust, corrosion or deterioration

**Attractive**—Sunlight-stabilized plastic remains new looking through years of use

**Environmentally Safe**—Nothing to contaminate soil

For more information on the C-Loc all-purpose golf course landscaping system call or write:

## PRODUCT UPDATE

### SERVICE VIDEOS

Two service videos providing step-by-step procedures for the care and maintenance of Kohler engines are now available.

"An Ounce of Maintenance" (ES103) is a 22-minute video owner's manual that explores such topics as lubrication, fuel, engine cooling, the carburetor, air filter, ignition, and electrical systems of K-Series, Magnum, and Command engines. Tips and proper service methods are offered for each topic, including a visual explanation of important engine components. A service review explains which maintenance procedures need to be performed when based on engine usage.

"Balance Gear Assembly" (E102) is a 10-minute instructional video illustrating new procedures for installing the crankshaft and demonstrating the timing of the two and three balance gears systems used

in 10 to 18 hp single cylinder engines.

### DISCUS CAGE

Designed to meet specifications of a National Track Federation ruling requiring high schools to have a discus cage by 1993, the Track Discus Cage from Stackhouse

can be set up in less than ten minutes.

The cage's poles are set into one-foot-

deep sleeves that have been set in concrete. The sleeves have locking hasps so that the poles can only be removed by authorized personnel.

An 11-foot, 1-3/4-x-1-3/4-inch mesh net hooks to quick-release clips that ride on a halyard system. The net can be raised or lowered easily.

## PRODUCT UPDATE

### **PENNANT LABEL EXPANDED**

Several improvements to Ciba-Geigy's Pennant liquid herbicide label have been approved by the EPA, increasing the number of desirable plants on which it can be used and weeds it controls.

Pennant's revised label allows the herbicide to be used on zoysiagrass, an important turf species in much of the southern U.S. Annual sedges, smooth and large crabgrass, and bearded sprangletop are now on its list of weeds controlled.

The Ornamental label includes more than 50 desirable plants such as bulbs, bedding plants, and annual flowers, as well as ground covers and woody ornamentals.

#### **CIBA-GEIGY**

Circle 149 on Postage Free Card

### **BUCKET FORKS**

Gearmore's attaching bucket forks can quickly turn a tractor into a forklift. They have a safety lock system that holds them in place on the bucket.

Manufactured of Boron steel that is fully heat-treated after bending, the forks are formed through a process that increases

the bend and heel thickness by 20 percent, eliminating the need for support braces in the bend. The fork tines are tapered and extra long easy loading of materials up to 22,000 lbs.
