Sports Surface Supplies

BEAM CLAY® introduces **Red Brick Dust**, **Red Lava Dust**, and **Red Warning Tracks** from 10 new bulk locations across the country. Deep red, absorbent and economical: To condition regulation infields, tooth drag eight tons **Red Brick Dust** or six tons **Red Lava Dust** into top one inch. For outfield warning tracks, a one inch cover of **1/4" Lava Track** takes only 22 tons! For more information, call your "One-Stop Source" for America's leading infield surfaces and supplies:

Topdressing Machine

The top dressing machine that blends high performance soil mixes. What kind of machine can the golf or sports turf manager use that will do the work of many machines as well as minimize the number of applications for the concerning compaction problems on sports turf and golf greens. The Dakota Topdresser, Model 220 has the capability of applying seed, fertilizers, chemicals, sand, peat or other soil amendments. It will meter, mix, topdress four of these products in one application. Also, the Model 220 has a built-in stacking conveyor to stockpile different mixes for renovations, divot mixes, etc. The Model 220 gives turf managers the freedom of choice to select the materials they chose, and can save them on the cost of soil mix and applications.
