

## PRODUCT SHOWCASE

### ProBlow

Selbro Inc. offers a high velocity, high output debris blower designed to attach to all popular sand trap rakes. The ProBlow attaches easily to and operates from the fuel and battery of the sand trap rake. The blower is powered by an 18hp twin cylinder Kohler Command engine, and develops over 5000 cfm @ 175 mph. The combination of these two machines creates the most versatile debris blower available in the turf care industry.

### The Bannerman Turf-Topper

This is the original big capacity, precision-built sportsfield topdresser. This machine has been performing successfully all over North America for over seven years. And it's still the only one that can make these claims. When equipped with 19-inch Pussy-Foot tires with up to three-yard load capacity maintains floatation pressure of 10-15 psi. Trouble-free self-tracking conveyor floor. Special "no-chatter" P.T.O. shaft for shorter turns. Equipped with portable, tractor-mounted hand brake for safety and convenience. Enclosed contra-rotating spreader cylinder for precision and speed.

### TURFACE

#### Mandatory Equipment for Successful Turf Maintenance

Relied on by NFL groundskeepers for years, TURFACE provides solutions to the most common problems facing turf managers: poor drainage, compaction and standing water. Super absorbent, TURFACE pulls excess moisture from the playing surface and slowly releases it into the root zone. With its angular shape, TURFACE reduces compaction, keeping soils loose for a healthy exchange of air and water. TURFACE will keep your turf strong and durable all season long.

## Font'N-Aire

**From the City of Fountains. Models from 1/2-hp to 5-hp.** Font'N-Aire combines the beauty of a romantic fountain with the benefits of an efficient aerator. Nothing moves water like a propeller. AIR-O-LATOR® has been involved in propeller design and the technology of aerating since 1967. Font'N-Aire utilizes the Franklin® Electric submersible motor, which is water-cooled and water-lubricated. We believe we can honestly claim the most energy efficient fountain on the market.

## Water Reels

Kifco has introduced two models to their popular line of Water-Reels. The new B110 and B180 extend the product line to ensure there is a Water-Reel to fit your needs. Machines are compact, easy to use, operate unattended, and shut off automatically. They are suitable for all types of sports turf and are easily transported from one area to another. Water-Reels combine outstanding features that come from more than 25 years of traveling sprinkler engineering.

## PRODUCT SHOWCASE

### TC 10 Turf Conditioner/Soil Injection

Turf Conditioner's hydraulic vibrating bullet blades shatter the sub-soil. The tractor drawn blades penetrate and travel at adjustable 2" to 8" depth creating continuous horizontal caverns the length of the field allowing water and air movement in root zone. No plugs! No mess! BD 1000 Bottom Dresser attachment meters fertilizer, polymers and other granules into root zone cavity while aerating. 2020 Vibra-Flo (not shown) injects into root zone cavity high volume sand, gypsum, etc. to over 8,000 lbs/acre. TC 11 Compact Turf Conditioner (not shown) attachments include: Sod Cutter•Pipe Puller•Wire & Cable Layer•Root Cutter•Bottom Dresser.

### O-Ring Constant Swivel Inlet

Dura Plastics, the innovator of the double O-ring swing joint has solved the common cause of mechanical failures in most piping systems, *the splitting of female threaded fittings due to over tightening*. Dura introduces its all new constant swivel swing joint with an O-ring seal at the inlet to prevent over tightening. No more need for Teflon tape, just assemble hand-tight and "snug it up", this will provide a positive seal against any leakage. Presently available on all Dura 1-1/2" swing joint configurations.
