

## PRODUCT SHOWCASE

### The TRUPLAY Diamond Groomer

The Bannerman TRUPLAY has been improving ball diamonds in the United States and Canada for seven or eight years now and it's still growing in popularity as more and more groundskeepers see what an outstanding job it can do in a very short time. It can help you totally renovate your diamond if need be, or mix in a soil conditioner if you like. Then, just 30 or 40 minutes before any game, a few finishing touches and you'll see what the "Home team advantage" really is.

### The Diamond-Master Groomer

This new diamond groomer is really just a deluxe model of the TRUPLAY. It has all the same tools working for you — the Ripper Blade, Spring-Tooth Rake, Levelling Mechanism, Roller and the Brush. When you're finished no one will know whether it's done by a TRUPLAY or a Diamond-Master. Why do people insist on buying the Diamond-Master? It's better looking. It costs a little more. It's easier to set up and adjust. Maybe they just want the very best. Why not talk to us about it?

### Wet and Dry Line Markers

Bannerman line markers are simple, practical, easy to maintain and affordable. The Wet Liner uses low-cost latex paint and marks on grass, asphalt or other solid surfaces. A well-balanced, professional machine rolling on pneumatic tires. Available with interchangeable belts in widths of 2, 3 and 4-inches. The Dri Liner handles virtually any powdered marking material on non-turf areas and is adjustable from 1 to 4-inch lines. Runs on 4 pneumatic tires for maximum stability. Phone, fax or write for more information.

### Bannerman Multi-Ject Aerifier

A new multi-purpose aerifier manufactured by Aerway features replaceable bolt-on tines. The well-known Shattertine and the new Finetine are also interchangeable. In the spring or fall, when you want maximum cultivation to over-come compaction, you bolt-on the Shattertines. During the playing season you switch to the Finetines so you can continue aeration in fine turf areas without restricting play. Yes, even on golf courses.

## Oly-Ola Recreational Edgings Inc.

*"Thanks to Fence Guard, the ballplayer walked away with only minor bruises."*  
 Ron Tola,  
 President  
 Nottingham Little League.

### Team Fence Guard Invaluable for Safety

Oly-Ola supplied Fence Guard to the Nottingham Little League in Hamilton Square, NJ for its baseball field, with immediate results. No sooner was Fence Guard in place than one of the young ballplayers slipped going for a fly ball, hitting his face flush on the top of what would have been fencing and a steel top rail.

"I don't like to think how badly the young man would have been injured but for Oly-Ola's timely new product," says Ron Tola, president of the Nottingham Little League. "Thanks to fence Guard, he walked away with only minor bruises."

Tola calls it "an invaluable addition" to safety products for Little League ballfields. "You can be assured that when the 60 to 70 leagues that visit our complex every season ask about Fence Guard," says Tola, "they'll be referred to Oly-Ola with the highest recommendations."

## Marking Machine

The Jaydee Model 5000 is a fully featured, self-propelled, professional line marking machine. The engine powers a piston pump, providing mechanical agitation, and powers both rear wheels - it tracks a straight line under its own power. The constant 2-mph speed results in uniform line width & brightness as well as predictable marking material consumption.

## Athletic Field Maintainer™ (AFM)

AFM stripes, sprays, and grooms, saving on maintenance time and materials. AFM can stripe several football fields without the need to refill; level and groom athletic fields with a heavy-duty harrow and broom or dragmat; and spray chemicals for weed and insect control. It can also pull a utility trailer or other accessories.

## Subsurface Drainage

The PDS/LunDrain System reduces the cost, time and labor to install a drainage system. This high-tech system is a longer lasting and more effective alternative to conventional, french drain, and trench drain systems. PDS/LunDrain prefabricated drain systems create a "void space" beneath the surface by providing

ing a cusped plastic core wrapped with a tough geotextile. The geotextile prevents soils from entering the core while allowing water to enter freely. Water inside the core moves laterally to an outlet, sump, or auxiliary drainage system.

### PDS/LunDrain Co., Commercial/Turf Division

## Non-Clogging Pump

The Diamond Pump is a durable, non-clogging hand pump which easily removes 18-20 gallons of water per minute from dirt infields, sand traps, ditches. Made of tough ABS and PVC, a six-inch aluminum disc prevents mud from being drawn directly into the pump. Absolutely will not clog.

## Speed Wrenches

Stamos Tool has introduced a new full line of cast aluminum speed wrenches designed to fit all nub-style PVC fittings and most adapters. These wrenches outperform chain, strap and pipe wrenches by far and are designed to fit different sizes of coupling caps, bodies, unions, female and male adapters. Only minimal ground clearance is required and they work on all manufacturers fittings. Many of our customers have been extremely satisfied with the STAMOS PVC NUB WRENCH. Here are some of their comments:

"Performed admirably, exceeded my expectations by far." - John Gallagher, Orange, CT; "Best irrigation tool improvement and innovation developed in quite some time." - Jim Hengel, NY. For further information call our toll-free number. Distribution Welcome.

## Flowmeter

Data Industrial 1400 series flowmeter is a battery-powered insert-style flowmeter that displays rate and total. Display is housed in a rugged aluminum enclosure built to Nema 6P submersion specifications, allowing the unit to operate fully submerged in a flooded meter pit for extended periods of time. The 1400 can be cal-

ibrated in the field for any size or type of pipe.

## There's a FINETINE between spring & fall

With Aer-Way's new Bolt-on tines you have a choice. Shattertine or Finetine. To get rid of compaction and stimulate deep root growth in the spring and fall you can't beat the Shattertine. But on fine turf areas where you can't restrict play, that's when you'll appreciate the new Finetine.

You get the same deep penetration with little or no disturbance on the surface.

Just another example of improved aeration technology from Aer-way.

Ask your dealer for a demonstration of these outstanding options today.
