

ROOKIES

Utility Vehicle

The G-11 Yamahauler is Yamaha Golf Cars' rugged utility vehicle designed to handle almost any light hauling job. The Yamahauler has a dual-purpose design that enables both box- and flat-bed applications from a single, convertible vehicle.

The drop-side utility box permits almost immediate removal of both its sides and tailgate for flat-bed hauling. The bed is 4 feet by 4 feet, has 13.4 cubic feet of space and a 500-pound capacity. A frame-mounted trailer hitch with a towing weight capacity of 150 pounds is also available. Powered by Yamaha's 8.6 hp., four-stroke, overhead valve engine, it offers a maintenance-free, transistor-controlled ignition that ensures reliable operation. Bench seats raise to provide easy access to the engine for servicing.
