## STABILIZER

THE NATURAL SOLUTION

WORKING TO IMPROVE YOUR PLAY . . .

Stabilizer is a patented, non-toxic premium organic soil additive for all infield dirt surfaces. It is simply a soil glue that binds your soil mix to produce a firm consistent playing surface. Stabilizer's compatibility with water allows you to achieve and maintain "Damp Soil Consistency," the ultimate goal for an infield mix. The final results are a safe, reliable infield that is easily maintained in any kind of weather.

## TurfGrids

"Tough Stuff for Sports Turf"

The TurfGrid system is patented, simple, logical and long overdue. It combines specially designed synthetic fibers into the natural grass field and increases the shear strength of the playing surface by 100%. This means sure footing and safety with less divots and injuries . . . just what good teams expect from their playing surface.

## WONDER WHY THE "CYGNET 48" INSTALLS AND RAPAIRS TURF ON MAJOR ATHLETIC FIELDS?

We install the widest, longest rolls on the market today from very thin to very thick cuts of sod.

No one has fewer  
or tighter seams!
