Turfgrass Seed Coating

CelPril's Nutri-Kote™ is the grounds care professional's best friend. Nutri-Kote stimulates growth and fights disease in newly seeded turfgrass. Nutri-Kote supplies vital nutrients to young seedlings during the critical early growth stage, providing a feeding as soon as young plants come to life. Nutri-Kote improves stand establishment by promoting more vigorous, healthier, thicker plants. Available with Apron® for Pythium control. Newly seeded greens can be played in as little as 3 weeks. Ask your turfgrass seed supplier for Nutri-Koted seed. **Ask for:**

Marking Machine

The Jaydee Model 5000 is a fully featured, self-propelled, professional line marking machine. The engine powers a piston pump, providing mechanical agitation, and powers both rear wheels - it tracks a straight line under its own power. The constant 2-mph speed results in uniform line width & brightness as well as predictable marking material consumption.

Turf Grids

Tough Stuff for Sports Turf

The TurfGrid system is patented, simple, logical and long overdue. It combines specially designed synthetic fibers into the natural grass field and increases the shear strength of the playing surface by 100%. This means sure footing and safety with less divots and injuries...just what good teams expect from their playing surface. From football to baseball, to soccer, to polo, to golf, TurfGrids can replace or upgrade any surface.
