Marking Machine

The Jaydee Model 5000 is a fully featured, self-propelled, professional line marking machine. The engine powers a piston pump, providing mechanical agitation, and powers both rear wheels - it tracks a straight line under its own power. The constant 2-mph speed results in uniform line width & brightness as well as predictable marking material consumption.

Water Reels

Kifco has introduced two models to their popular line of Water-Reels. The new B110 and B180 extend the product line to ensure there is a Water-Reel to fit your needs. Machines are compact, easy to use, operate unattended, and shut off automatically. They are suitable for all types of sports turf and are easily transported from one area to another. Water-Reels combine outstanding features that come from more than 25 years of traveling sprinkler engineering.

Turf Grids

Tough Stuff for Sports Turf

The TurfGrid system is patented, simple, logical and long overdue. It combines specially designed synthetic fibers into the natural grass field and increases the shear strength of the playing surface by 100%. This means sure footing and safety with less divots and injuries...just what good teams expect from their playing surface. From football to baseball, to soccer, to polo, to golf, TurfGrids can replace or upgrade any surface.

Turfgrass Seed Coating

CelPril's Nutri-Kote™ is the grounds care professional's best friend. Nutri-Kote stimulates growth and fights disease in newly seeded turfgrass. Nutri-Kote supplies vital nutrients to young seedlings during the critical early growth stage, providing a feeding as soon as young plants come to life. Nutri-Kote improves stand establishment by promoting more vigorous, healthier, thicker plants. Available with Apron® for Pythium control. Newly seeded greens can be played in as little as 3 weeks. Ask your turfgrass seed supplier for Nutri-Koted seed. **Ask for:**

ROOKIES

Turf Topper

When equipped with 19-inch "pussy-foot" tires, the Bannerman Turf-Topper maintains a flotation pressure of 10-15 psi. It also has a trouble-free, self-tracking conveyor floor and a "no-chatter" PTO shaft for shorter turns. Safety features include a portable, tractor-mounted hand brake and an enclosed contra-rotating spreader cylinder for precision and speed.

Recycled Soil Amendment

North Pacific Trading and United Recycling recently teamed up to manufacture and distribute an agricultural-

grade gypsum. United Recycling collects wallboard from new construction, which reduces the quantities dumped into landfills. The only wallboard accepted is from new construction cleanup. No material with paint or other coatings is acceptable.

After the paper is removed, the remaining gypsum is ground to a 100-mesh powder. The material is bound with a water-soluble binder to produce a prilled material. The finished product has a pH of 7.3 and is available in 40-pound bags and bulk.

The company is approaching its first anniversary and has processed more than 2,000 tons of wallboard.

Tractor-Mounted Grass Mulcher

The Grassmulcher tractor-mounted finishing mower cuts and recuts grass into a fine mulch, eliminating raking and clipping disposal. Four specially designed, dual-action, tempered-spring-steel blades cut, lift and recycle clippings back into the grass mat. It leaves no lines if mowed weekly, and provides a well-manicured finish.

Safety features include rollers and a completely enclosed cutting chamber. Front and rear flaps provide protection from stones and debris. Cutting height is adjustable from 0.75 inches to 4.75 inches.
