

ROOKIES

Turf Topper

When equipped with 19-inch "pussy-foot" tires, the Bannerman Turf-Topper maintains a flotation pressure of 10-15 psi. It also has a trouble-free, self-tracking conveyor floor and a "no-chatter" PTO shaft for shorter turns. Safety features include a portable, tractor-mounted hand brake and an enclosed contra-rotating spreader cylinder for precision and speed.

Recycled Soil Amendment

North Pacific Trading and United Recycling recently teamed up to manufacture and distribute an agricultural-

grade gypsum. United Recycling collects wallboard from new construction, which reduces the quantities dumped into landfills. The only wallboard accepted is from new construction cleanup. No material with paint or other coatings is acceptable.

After the paper is removed, the remaining gypsum is ground to a 100-mesh powder. The material is bound with a water-soluble binder to produce a prilled material. The finished product has a pH of 7.3 and is available in 40-pound bags and bulk.

The company is approaching its first anniversary and has processed more than 2,000 tons of wallboard.

Tractor-Mounted Grass Mulcher

The Grassmulcher tractor-mounted finishing mower cuts and recuts grass into a fine mulch, eliminating raking and clipping disposal. Four specially designed, dual-action, tempered-spring-steel blades cut, lift and recycle clippings back into the grass mat. It leaves no lines if mowed weekly, and provides a well-manicured finish.

Safety features include rollers and a completely enclosed cutting chamber. Front and rear flaps provide protection from stones and debris. Cutting height is adjustable from 0.75 inches to 4.75 inches.

PRODUCT UPDATE

Spreader

The Course Air Turbo II features a number of improvements, including a 20-cubic-foot hopper, breakaway booms for safety, 16- or 20-foot boom spread, shorter tongue for easier turning and lightweight environmental shields. It also has a wide range of application rates — five to 500 pounds per acre for fertilizer, seed or dry pesticides.

The unit's air-flow application system eliminates ballistic segregation. Environmental shields add safety when applying near homes or people.

Bunker Pumper

This floating portable pump is an easy method of getting water out of your way fast. The self-priming pump removes water from sand traps, swimming pools and any other low-lying areas.

Capable of starting in as little as 3 inches of water, the Bunker Pumper can pump 280 gpm. Features include a Briggs & Stratton 8-hp engine and a cast aluminum alloy pump with built-in suction screen and skids. The pump weighs 85 lbs.
