## Topdresser

Turfco Mfgs' Mete-R-Matic III topdresser has the new chevron belt for leveling turf and promoting the decomposition of thatch. It is a non-hydraulic ground-driven unit pulled by most tractors and turf trucks. The chevron belt combined with the ground drive revolutionizes topdressers' abilities to uniformly spread material. It has a 5-foot-wide spread and is easily loaded with a front end loader; allowing you to uniformly topdress an athletic field in two hours or less.

## Turfgrass Seed Coating

**CelPril's Nutri-Kote™** is the grounds care professional's best friend. Nutri-Kote stimulates growth and fights disease in newly seeded turfgrass. Nutri-Kote supplies vital nutrients to young seedlings during the critical early growth stage, providing a feeding as soon as young plants come to life. Nutri-Kote improves stand establishment by promoting more vigorous, healthier, thicker plants. Available with Apron® for Pythium control. Newly seeded greens can be played in as little as 3 weeks. Ask your turfgrass seed supplier for Nutri-Koted seed. **Ask for:**

## Sportsfield Drainage

Will your sportsfields be ready to play 45 minutes after a 5-inch cloudburst? Tulsa Drillers Stadium was . . . because it's a Championship Athletic Turf™ natural turfgrass sportsfield installed by **stn sports**. More than 2000 **stn sports** fields are now installed in the U.S. and around the world. The list of teams that now rely on **stn sports** playing fields reads like a Who's Who of Successful High School, College, and Professional Sports Programs. We specialize in both the renovation of existing sportsfields and the design, construction, and planting of high-drainage turfgrass sportsfields.

## Aerator

The Ryan Tracaire helps you alleviate compaction problems that result from constant heavy use and seasonal changes on fairways, athletic fields, parks and many other large turf areas. Mount the Tracaire on any tractor with a category "1" three-point hitch. It covers a 6-foot aerating width with its coring, slicing or deep-spoon tines. A drag mat can be used for breaking up cores while you aerate.

## Water Reels

Kifco has introduced two models to their popular line of Water-Reels. The new B110 and B180 extend the product line to ensure there is a Water-Reel to fit your needs. Machines are compact, easy to use, operate unattended, and shut off automatically. They are suitable for all types of sports turf and are easily transported from one area to another. Water-Reels combine outstanding features that come from more than 25 years of traveling sprinkler engineering.

## Marking Machine

The Jaydee Model 5000 is a fully featured, self-propelled, professional line marking machine. The engine powers a piston pump, providing mechanical agitation, and powers both rear wheels - it tracks a straight line under its own power. The constant 2-mph speed results in uniform line width & brightness as well as predictable marking material consumption.

## Turf Grids

### **Tough Stuff for Sports Turf**

The TurfGrid system is patented, simple, logical and long overdue. It combines specially designed synthetic fibers into the natural grass field and increases the shear strength of the playing surface by 100%. This means sure footing and safety with less divots and injuries...just what good teams expect from their playing surface. From football to baseball, to soccer, to polo, to golf, TurfGrids can replace or upgrade any surface.

## Portable Blenders

What kind of machine can the golf or sports turf manager use that will do the work of many machines as well as minimize the number of applications for the concerning compaction problems on sports turf and golf greens?

The Dakota Topdresser, Model 220, has the capability of applying seed, fertilizers, chemicals, sand, peat or other soil amendments. It will meter, mix, topdress four of these products in one application. Also, the Model 220 has a built-in stacking conveyor to stockpile different mixes for renovations, divot mixes, etc.

The Model 220 gives turf managers the freedom of choice to select the materials they choose, and can save on the cost of soil mix and applications.
