

# ROOKIES

## Turf Vacuum

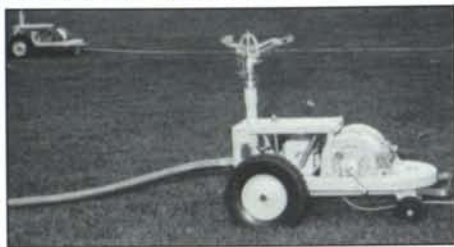

The Bac-Vac™ is a feature-packed collection system for use on Hustler Models 2500 and 2700. The nine-bushel catcher is dumped from the operator's seat and features a fiberglass box for corrosion resistance and a sight window to alert the operator when the hopper is full. The high-speed blower mounts on the 52-inch or 60-inch side-discharge deck and produces nearly 10,000 CFM of air flow for high-capacity vacuuming. The hopper and blower are designed for easy, one-person operation.

## The Rain Train

The Rain Train is designed for groundskeeping departments that are not equipped with an underground sprinkler system. Setup involves plugging a 1-inch hose into the back of the unit, drawing out the guide cord to the end of the desired run and turning on the water. Water pressure powers the Rain Train down the field up to 200 feet. Adjustable travel speed enables varying amounts of application in a single pass. Automatic shut-off triggers the end of a pass.

## Multipurpose Spreader

The MPS-125 Spreader offers a durable thermoplastic no-rust hopper and fully enclosed 12-volt high-torque motor.

A remote joystick lever controls a stainless steel flow gate, which enables precise metering of material and variable-speed spinner spreads 4 to 40 feet. It mounts on a tractor, utility vehicle, front mower or truck. Designed for year-round use, it can spread seed, fertilizer, granular chemicals or deicing products.

## Revised Catalog

The *Tire and Rubber Repair Materials and Accessories* catalog was updated and revised by Rema Tip Top/North America Inc. The publication features a complete line of tire-repair products, tools and equipment. The 76-page master catalog features training materials, enhanced product application and selection charts and an expanded master index. The layout format has major-product categories color-coded, with applicable accessory products listed with the main product, so everything needed to make a repair is listed on the same page. This is the first revision of the company's catalog in three years.

## Irrigation Auditing Kit

The Toolkit Co. offers a complete turf irrigation tool kit to be used as part an irrigation audit. With the increasing importance of water-use efficiency, irrigation auditing is the tool for assessment of a sprinkler irrigation system.

The kit includes 30 catch cans, 30 catch-can stands, Rain Bird pressure gauge (0-160 psi), 100-foot fiberglass measuring tape, Oakfield break-apart soil probe, Contico toolbox and 30 marking flags. Each kit also includes one pop-up pressure adapter with a schrader valve. Introductory price is \$370, freight included, plus 7.25 percent California sales tax. Items in the kit can also be purchased separately. Custom-printed marking flags are also available (1,000 minimum order).

## Turfgrass Biostimulant

A new biostimulant, 3D, is derived from pure-quality, cold-process seaweed, fortified with proprietary humic acid and beneficial plant-growth nutrients. It contains five-percent special process chelated iron for quick green-up and is designed to give the turf professional a three-dimensional approach to turf conditioning with foliar enhancement, physiological integrity and foundation fortification. Field tests have shown a 300-percent increase in root mass vs. control. The biostimulant was developed by Dr. Richard Dedolph for Plant-Wise Biostimulant Co. He was recently a project leader of the NASA space agricultural program.
