VOLUME TWELVE, NUMBER ONE

JANUARY 1996

MAIN EVENTS

10 Steve Wightman: Man of the Year

His technical expertise and contributions to the industry make Steve Wightman an easy choice for *sportsTURF*'s eighth annual award.

14 Protecting Turf With Field Blankets

Athletic field consultant Mike Hebrard demonstrates where and how to use covers to solve specific problems on a variety of sports fields.

20 Equipment Maintenance: Aerators

Aeration is recognized as the hardest on equipment of all turf maintenance procedures. Following recommended practices, the turf manager can keep aerators operating at peak performance with a minimum of downtime.

24 Natural Turf Management, Part 1

A specific disease, weed or other problem is not so much the cause of grass weakening and dying as it is a symptom of unfavorable conditions. In this first of a six-part series, agronomist Don Arenberg shows how to create favorable conditions through natural methods.

26 Supplementing Natural Grass With Artificial Turf

SportGrass, designed to combine the best of both natural and artificial surfaces, has met with favorable responses so far. If it continues to impress, it could become a viable alternative for many playing fields.
