Bunker Pumper

Dewater bunkers that won't drain in just minutes with the Otterbine Bunker Pumper.

This light weight portable floating pump will pump over 280 gallons per minute and can easily be operated by one person. According to John Chassard of Lehigh C.C. "No other pump performs like the Otterbine. We used to spend two days after a rain storm pumping out our bunkers. Now we can do it in less than half the time, and with the Otterbine there's no worrying about sand, grass, or leaves. The pump has paid for itself with what I have saved in labor costs. It's great!" So, call or write today to find the Otterbine distributor that's closest to you.
