## Nutgrass Annihilator Registered

Nutgrass Nihilator has recently been registered for use as a post-emer-

gence control of nutgrass and other weeds in cool and warm season turf. It can also be used on certain ground covers as an over-the-top spray, and on certain ornamentals as a direct spray.

Nutgrass Nihilator is applied with a crop oil concentrate to the nutgrass as it is growing. A second application may be needed 10 to 14 days later. Nutgrass Nihilator not only controls the top of the plants, but is translocated down to control the nutlets.

The product is available in pint containers. Monterey Lawn and Garden Products Circle 150 on Postage-Free Card

## Mower Eliminates Pulleys and Belts

Bunton's Hydro Walk-Behind rotary puts hydrostatic power to work, eliminating the need for wheel pulleys and belts. In addition to an infinite range of forward speeds, the hydrostatic drive offers superior zero-turning-radius maneuverability and control. A baffled eight-quart reservoir keeps the drive

system fluids cool.

The Hydro line is available in 36-, 48-, 52- and 61-inch cutting widths and in seven OHV electronic-ignition engines, with power choices of 14-, 16-, 18- and 20-hp.

The unit has fingertip controls and a rust-proof, 4.2-gallon gravity-feed fuel tank.

## Breaking Up Compacted Soil

Premier Environmental's Fields choice soil amendment improves the overall health and durability of sports turf. The naturally porous product breaks up compacted soil, providing increased aeration, percolation rates and vigorous rootzone development. Kiln-fired to resist degradation caused by chemical or physical forces, Fieldschoice permanently reduces soil compaction, allowing for increased aeration and healthy turf.

## AERA-vator®

### THE TOOL VERSATILE ENOUGH FOR GOLF OR SPORTS TURF!

"Maintaining turf in the high altitude of the Rocky Mountains is a real challenge. Every spring, new rocks are pushed towards the surface, causing big problems with our core aerators. Not only does the AERA-vator roll right over rocks with no problem, it can be used at any time to oversee high traffic areas without interrupting play."

Ross Andrews  
Superintendent, Cordillera Mountain Club  
Vail Valley, Colorado

"This is the only multi-faceted aerator on the market today for sports fields. It can fracture the hardest clay and the most compacted turf with ease and leave the surface in near game-ready condition. It's a winner for the progressive groundskeeper."

Floyd Perry  
1997 sportsTURF Manager of the Year

## Sport Fence Designed to Reduce Injuries

Specialty Recreation Equipment's Sportfence II is lightweight. Each free-standing panel weighs 25 pounds. No stakes or posts are needed for setup. The unit has no sharp edges; it has a patented "breakaway" mechanism that activates on player impact, reducing the potential for serious injury. It

is constructed of durable polymers that won't become brittle with age and exposure.

Sportfence is currently in use at ASA Hall of Fame Stadium, Oklahoma City; the National Champion Brackets Stadium, Stratford, Connecticut; and U.S. military bases worldwide.

## Now you can afford to improve your sports turf

Give your grounds crews the right tools for basic sports turf maintenance without spending a fortune. Millcreek turf equipment works great and is priced for schools and park and rec dept's with limited budgets.

*Millcreek Front-Mount, 3-Point Hitch and Tow-Behind aerators work with equipment you already have.*

### Aerate turf often

Millcreek core plug aerators give turf roots the air and water they need, especially in high traffic areas such as soccer goals. Players and coaches will be delighted with the results. The exclusive Protector Shield™ safety cage encloses tines during operation and storage. Millcreek aerators work with equipment you already have. Choose from more than 12 professional aerator models, starting around \$1100.\*

*Schools and municipalities use our Topdresser to improve sports fields with limited labor.*

### Topdress to improve soil

The Millcreek Topdresser is more versatile and about 1/3 the price of large area topdressers. Topdressing in conjunction with aeration improves drainage and reduces thatch. The Millcreek Topdresser will help you create a more level playing surface, and is ideal for applying compost as well as sand/peat mixtures. It topdresses a football field in 2 to 3 hours. A single operator can apply infield mix. Starting under \$6000,\* you can't beat the versatility and economy.

### Rugged, affordable turf equipment

Have a turf professional set up your maintenance program. Then, with Millcreek equipment, your crews can do the job themselves. It's the easiest, most cost-effective way to improve your sports turf.
