

NOW *One pass aerating and clean-up!*

With Goossen's new *Versa-Vac Aerator Attachment*

Turf can now be aerated and cores harvested in just one pass. With one single pass, Goossen's 50-inch aerator attachment penetrates the soil with hydraulically controlled pressure followed by a 70-inch counter-rotating steel flail rake that pulverizes the cores allowing the thatch to be lifted into the trailer while the soil is left behind as a fine top dressing. Immediate pick-up of cores eliminates the smashing that occurs when the cores are driven over by other methods used for harvesting. A finishing roller smooths the turf where the cores were extracted. The rake has steel knives or rubber fingers which are interchangeable depending upon the type of soil being treated.

Interchangeable decks are also available for mowing, sweeping and vacuuming. Let the Versa-Vac meet all your turf care needs.
