heat." He wants "the natural grass green, soft and no holes." Findley stated that he was extremely pleased with what Brian and his crew supplied. Since spring drills had just concluded, Findley also spent some time talking about this year's team and his thoughts on how they should do.

Through the Chapter Sponsorship program, STMA Executive Director, Steve Trusty, was able to attend and make a presentation on "Professionalism and Certification." He also answered questions about national STMA programs and what both chapter and national members can gain from participating.

Dr. David Kopec followed up with an "Herbicide Update." He provided data on University trials and noted how they provide information especially useful for Arizona sports turf managers.

Following a lunch out on the football practice fields, the group viewed exhibits from the area vendors and observed demonstrations on equipment and techniques.

This event—and similar ones held by local STMA Chapters around the country—provide an excellent opportunity for everyone involved with maintaining athletic fields to see fine facilities, learn from experts, share information and ideas with each other, visit with vendors, and see problem-solvers in action. Be sure to watch for events in your area.

AIRFIELD™

**We Have Taken Athletic Fields
Out of the Stone Age!!!**

The Airfield™ Sports Turf System is the first natural turf system to offer a drainage technology that doesn't rely on the French drain, developed in the times of the Roman Empire. Airfield™ suspends the entire playing surface over a one inch layer of air. Once the water has moved through the root-zone it drains away easily in the open air void.

Airfield™ produces substantially higher drainage rates and reduces irrigation requirements when compared to conventional methods – with savings as high as 20 percent of the total cost of construction. Financing available.
