

# KAFMO outing nets more than \$500 for scholarships

BY DAN DOUGLAS

The Keystone Athletic Field Managers Organization (KAFMO) chapter of the Sports Turf Managers Association held its 1st Annual Scholarship Fundraising Golf Outing at the Overlook Golf Course in Lancaster, October 22, 2001. Thirty-seven golfers participated in the event that raised money for the KAFMO scholarship fund. Hole sponsorships and raffle prizes were donated by more than 20 companies.

The sloping fairway of hole number one featured a large KAFMO logo painted by Chris Lessig of the Manheim Township Parks and Recreation Department. The highlight of the day was a hole-in-one by Steve LeGros of Hershey Sports and Entertainment. LeGros partnered with Webb Cook, Leroy Hurst, and Dan Douglas to win the scramble tournament. Food, drink, raffle prizes, and socializing followed the round of golf.

KAFMO would like to thank the vendors who supplied the hole sponsorships and raffle prizes and all of the golfers who played in the outing. The money raised from the day of fun will help support a sports turf student in Pennsylvania. **ST**

## Our innovations in sport and recreational surfaces, are born of experience, research and testing.

Stabilizer Solutions, Inc. is the developer of **Stabilizer™** the all climate, natural cohesive for crushed stone and native soil infield mixes. Other product innovations in sport surfaces include **TurfGrids®** and **Hilltopper™**. **TurfGrids®** fibers stabilize turf for baseball, football or soccer fields, equestrian venues and golf courses. **Hilltopper™** is a polymer coated clay for baseball or softball mounds and home plate areas.

**Stabilizer™** our natural soil amendment provides an outstanding infield or warning track when mixed with a screened blend of sand, silt, clay or crushed stone. This mix provides a firm, resilient playing surface that has less mud and dust. It has good water bearing capacity and load bearing strength, retains flexibility, cushion and reduces wind and water erosion. It can be used with other ballfield amendments. Stabilizer is available internationally as a bagged component to be mixed on-site.

**Stabilizer Pre-Mixes** are available from our regional dealers. We have developed Pre-Mixes for Infields, Warning Tracks, Soccer Fields, Pathways, Parking and Recreational Areas. Contact us for a dealer near you.

### Optimize your turf's shear strength & load bearing

**TurfGrids®** are safe, non-toxic, polypropylene fibers that help provide a consistent athletic surface that can be worked and maintained with conventional equipment. These small fibers act as a mass of indestructible roots. Turf roots intertwine and interlock with these "fiber roots" resulting in an extremely strong reinforced turf surface that resists divoting and rutting. TurfGrids® can be used for complete field stabilization or in selected high wear areas. TurfGrids® are a proven performer on all types of turf surfaces including, golf courses, turf race tracks, baseball, football and soccer fields. **Improve Stability, Drainage, Divot Resistance, Aesthetics and Durability**

### Make a good field better with Hilltopper™

**Hilltopper™** is a simple solution to improve the flexibility of your mound and home plate areas. Hilltopper needs no water, just spread and tamp. It's ready for play! Installation or repair takes half the time of traditional clay products due to Hilltopper's unique mix of long lasting binders, coatings and natural clays.

*This product is available in 50 pound bags (40 per pallet).*
