

Teamwork spells success

The success of the joint community service project teaming the Tennessee Titans and the Tennessee Valley Sports Turf Managers Association (TVSTMA) will be celebrated by cheering fans at the official dedication August 29. That's when the Whites Creek High School football team will kick off their season opener with Glencliff High School on the field professionally renovated by TVSTMA volunteers and topped with sod donated by the Titans.

The joint project was sparked last winter when Terry Porch, the Titan's head groundskeeper and TVSTMA member, first talked with the chapter about donating the Coliseum sod to a local high school. The idea grew as the chapter discussed the field preparation needs at the potential high school site and the process of stripping, transporting, and installing the donated sod. They determined they could pull it off with donated services by chapter member companies and the coordinated efforts of chapter volunteers.

Porch and his assistant Marty Kaufman presented the idea to the Titans, who not only embraced it wholeheartedly, but also marshaled the forces of their community relations department to coordinate media coverage to spread the news.

The Metropolitan Nashville School District selected the Whites Creek High School after consultation with the Titans and TVSTMA.

TVSTMA member companies volunteered goods and services. Precision Sports Field prepped and laser graded the Whites Creek field before installa-

tion. Saunders Landscape and Maintenance provided the trenching for the irrigation system and the irrigation system installation. Tieco/Rain Bird provided the irrigation system sprinklers, valves, and control system. Turfgrass America provided supervision and labor to harvest the Titans sod at the Coliseum and install the donated turf at Whites Creek. Clarkland provided

fertilization and topdressing of the new Whites Creek turf. Harrell's provided fertilizer and weed control products. Among the other contributing chapter member companies were Lesco and Southern Athletic Fields. Individual chapter members also contributed their time and expertise to complete the project.

The Titans featured the project on their website, www.titansonline.com. That coverage included the following:

"The members of the Sports Turf Managers Association are the professionals who combine scientific agronomic principles with technical expertise to develop and maintain safe and aesthetically pleasing playing surfaces."

"Our common goal is to provide the best sports surfaces for all levels of play," said Bob Elliott, president of TVSTMA. "We believe safe, playable fields are the right of any athlete, male or female, no matter how old or how young, or how well developed the level of their talents and skills. That's why we're combining our Chapter's volunteer efforts with those of the Tennessee Titans on this field renovation project."

Chapters on the Grow

South Carolina: Efforts are currently underway in South Carolina to form a Chapter of the Sports Turf Managers Association. The contact is Dr. Trent Hale, a Research and Extension Turfgrass Specialist in the Department of Horticulture for Clemson University. He is located at the Pee Dee Research and Education Center in Florence. On April 15th Dr. Hale hosted a meeting of athletic field managers, Clemson University professors, and turfgrass industry personnel interested in forming a Chapter. A steering committee is currently being formed and plans were made to hold the first meeting on September 30, 2003 in Myrtle Beach, SC. If you are interested in participating in this meeting please contact Dr. Hale at (843) 662-3526 or by email at thale@clemson.edu. Information will also be available on the web at: www.clemson.edu/turfornamental/.

New York: For information on the chapter forming in Central New York, contact Kevin Meredith, National Soccer Hall of Fame, at e-mail: Kevin@wpe.com or at tel. 607-432-2953.
