No Drain, No Game!

WaterWick's patented gravel-vein injection system creates a permanent answer to chronic wet turf problems. So the game goes on without delay.

- Improves drainage and aeration
- Fundamentally non-invasive. Treated turf is immediately ready for play
- Proven in golf course, sports turf and landscape applications

Low-compaction WaterWick unit is ideal for golf greens and other fine turf. Or choose our innovative 3-point hitch system for your tractor — it injects WaterWick drainage, trenches, pulls pipe, lays wire and more.

WaterWick

Don't let wet turf bog you down. Contact WaterWick.

"Seeing is believing"
Call for a demonstration today

The First Products AERA-VATOR® uses a “patented” vibrating action to loosen and break up hard and compacted soils in the root zone, without destroying existing turf on the surface. The AERA-VATOR® has a unique swing hitch that allows the operator to turn around objects without tearing the turf. The rear roller can be pinned to control line depth up to 3 ½ inches deep. The AERA-VATOR® comes in several models ranging from 40” to 80” wide. The unit also comes with optional sized box for over seeding or primary seeding.

Jaydee Drive Liner

The Jaydee Drive Liner is a self-propelled riding line marker. The 35-gallon paint tank carries enough marking material for a complete game field, or several practice fields. The 2-gallon flush tank cleans the discharge lines for work breaks, travel, or overnight. The center or side-mark spray shields are always operator-visible. A nearly zero turning radius reduces or eliminates back and turn maneuvers.

**Turf Diagnostics & Design**

"Managing the Elements Through Science"

Field Stability & Hardness Testing for Artificial and Natural Turf

ASTM F355A
ASTM F1936
ASTM F1702

Construction Quality Control Testing
Annual Audits

Gmax Testing, Impact Testing, Hardness Testing, whatever you want to call it, we provide it. Most experts recommend Gmax testing for construction quality control, then annually to verify field integrity.

You spend a lot of money on your fields, shouldn’t you be using our cost-effective services to ensure they’re in proper condition?
Subgrade testing also available!

We are an independent testing company, not affiliated with any suppliers.
