

POWER BROOMS

Shindaiwa's PowerBrooms provide aggressive cleaning on all types of surfaces. The belts, brushes and flexible fins are made to last for hundreds of hours of trouble-free use. Powered by a Shindaiwa 2-cycle engine, both models are equipped with a chrome-plated cylinder, 2-ring piston, heavy-duty crankshaft and ball-and-caged needle bearing construction.

**FIELD MAINTENANCE VEHICLE**

Broyhill introduces the new Highlander SPORT turf maintenance vehicle, designed to provide multi-functional tasks for turf and athletic field maintenance. Highlander Sport's hydrostatic drive, 16-hp air-cooled engine, and zero-turning radius provide maneuverability and speeds up to 12-mph.

Standard features include a low-profile fiberglass body, ergonomic seat with engine switch, and exclusive wrap-around rear-hinged cargo box for operator accessibility while seated. Mid- and rear-hydraulic lifts accommodate a variety of attachments.

**ST. AUGUSTINE HERBICIDE**

New SpeedZone St. Augustine formula provides broadleaf weed control. In tests it controlled weeds like dollarweed, creeping beggarweed, clover, plantain, ground ivy, and spurge, with visible injury within hours. SpeedZone contains carfentrazone, the newest herbicide for the turf market. It inhibits an enzyme in chlorophyll production which causes cell membranes to rupture, resulting in weed death in 7-14 days.
