

Why settle for second best?

FIRST PRODUCTS Aera-vator

The only PTO powered aerator on the market. The Aera-Vator uses a patented vibrating action to fracture the hardest clay or the most compacted turf with ease. You can aerate established turf, incorporate soil additives or prepare the ground for laying sod. The Aera-Vator comes with an optional seed box for over seeding or primary seeding. This unit comes with a swing hitch that allows the operator to turn without tearing established turf.

No Drain, No Game!

WaterWick's patented gravel-vein injection system creates a permanent answer to chronic wet turf problems. So the game goes on without delay.

- Improves drainage and aeration
- Fundamentally non-invasive. Treated turf is immediately ready for play
- Proven in golf course, sports turf and landscape applications

Low-compaction WaterWick unit is ideal for golf greens and other fine turf. Or choose our innovative 3-point hitch system for your tractor — it injects WaterWick drainage, trenches, pulls pipe, lays wire and more.

Don't let wet turf bog you down. Contact WaterWick.
