THATCH MASTER
FINE TURF VERTI-CUTS

Now available in 72” Width

BENEFITS
Along with other management practices, regular verti-cutting is a tool that can help to maintain or create a World Class field. It does this in several ways:

1. Cuts booth stolons & rhizomes creating growth and a thick, lush turf.
2. Removes excess thatch allowing gas exchange and facilitating water infiltration.
3. Creates seedbed for overseeding.
4. Helps transition by thinning out overseeded grass and stimulating growth of the underlying turf.

Jaydee Drive Liner

The Jaydee Drive Liner is a self-propelled riding line marker. The 35-gallon paint tank carries enough marking material for a complete game field, or several practice fields. The 2-gallon flush tank cleans the discharge lines for work breaks, travel, or overnight. The center or side-mark spray shields are always operator-visible. A nearly zero turning radius reduces or eliminates back and turn maneuvers.

CHAIN LINK FENCE GUARDS

Fence Guard™ protective covers for chain link fencing from Partac Peat Corp. are available in six colors—safety yellow, dark green, red, white, blue, and orange—as well as two grades—premium and standard. These UV-resistant, polyethylene covers protect players from injuries and provide a distinctive look to your fencing.

Fence Guard™ comes in cartons of ten 8-ft. sections with fifty 8-in. UV-resistant ties for securing every 2 feet of fence. With a 5-year manufacturer’s limited warranty.

For safety and uniform appearance, you should remove crowns from the tops of fence posts so that the entire fence top is covered; ends can be butted or overlapped, and the product is easy to cut.

Bottom Guard™, which serves the same safety and appearance purpose, also reduces erosion and eases weed cutting.
