**Jaydee Drive Liner**

The Jaydee Drive Liner is a self-propelled riding line marker. The 35-gallon paint tank carries enough marking material for a complete game field, or several practice fields. The 2-gallon flush tank cleans the discharge lines for work breaks, travel, or overnight. The center or side-mark spray shields are always operator-visible. A nearly zero turning radius reduces or eliminates back and turn maneuvers.

SAND MASTER

THATCH MASTER
FINE TURF VERTI-CUTS

BENEFITS
Along with other management practiced, regular verti-cutting is a tool that can help to maintain or create a World Class field.
It does this in several ways:
1. Cuts both stolons & rhizomes creating growth and a thick, lush turf.
2. Removes excess thatch allowing gas exchange and facilitating water infiltration.
3. Creates seedbed for overseeding.
4. Helps transition by thinning out overseeded grass and stimulating growth of the underlying turf.

Dry Line Markers & Drag Mats

Soil-Add™ is a graded, sized and affordable calcined clay used for amending soil and improving infields. Soil-Add™ Fine is an aid to preventing rainouts when used to absorb standing water on infields. Soil-Add™ has excellent absorption qualities and with its low bulk density you use less for the same coverage. Soil-Add™ is the perfect topdressing for fields after aeration to reduce compaction and watering requirements.
