WaterWick's patented gravel-vein injection system creates a permanent answer to chronic wet turf problems. So the game goes on without delay.

- Improves drainage and aeration
- Fundamentally non-invasive. Treated turf is immediately ready for play
- Proven in golf course, sports turf and landscape applications

Low-compaction WaterWick unit is ideal for golf greens and other fine turf. Or choose our innovative 3-point hitch system for your tractor — it injects WaterWick drainage, trenches, pulls pipe, lays wire and more.

Jaydee Drive-Liner

The Jaydee Drive-Liner is a self-propelled riding line-marker featuring a 13.5 h.p. Briggs & Stratton engine, along with a 3.3 gallon remote fuel cell, a 35 gallon paint tank that carries enough marking material for a complete game field, or several practice fields. The 2 gallon flush tank cleans the discharge lines for work-breaks, travel or overnight. Center/side-marking sprayshields are always operator visible.

A nearly zero degree turning radius reduces or eliminates back and turning maneuvers.

Micro Rain

The simple way to irrigate sports fields!

Affordable—irrigate several fields with one machine.
- Unit sits off the field and automatically travels entire length of field, nothing remains on the field after watering.
- Automatic shutdown—unattended operation.
- Efficient water powered turbine
- Quality built, computer robotic welded, lasts for years
- Engine booster pump option for one pass coverage
- Inexpensive and safe—less costly to install and maintain than inground and sprinkler line to lay or slip on
