Jaydee Drive Liner

The Jaydee Drive-Liner is a self-propelled riding line-marker featuring a 13.5 h.p. Briggs & Stratton engine, along with a 3.3 gallon remote fuel cell, a 35 gallon paint tank that carries enough marking material for a complete game field, or several practice fields. The 2 gallon flush tank cleans the discharge lines for work-breaks, travel or overnight. Center/side-marking sprayshields are always operator visible. A nearly zero degree turning radius reduces or eliminates back and turning maneuvers.
