ECO-LINER II FIELD MARKER

Newstripe's ECO-LINER II gas-powered field-marker incorporates a direct drive industrial grade diaphragm pump coupled to a 3.5-hp engine to provide paint pressure up to 60 psi. Both this machine and Newstripe's battery-powered ECO-LINER use a standard 5-gal. pail as the paint tank, eliminating the clean up and safety concerns of pressurized paint tanks. Simply set a bucket of premixed paint on the machine, snap on the lid and pull the trigger. There are no gauges to monitor or controls to adjust. When the job is done, just remove the pail, reseal it for future use, pump a little clear water through the system, and you're ready for the next striping job.

Newstripe, Inc/800-624-6706

see <http://www.oners.ims.ca/5067-054>

SYNTHETIC TURF INTERNATIONAL

Synthetic Turf International, supplier of putting greens and related synthetic surfaces, was selected to provide arena turf systems for three National Indoor Football League (NIFL) teams. Designed for use in multi-purpose venues, this convertible turf system is a Velcro seam system. The ease of installation allows facilities to host a wide range of events with limited downtime. The turf's foam backing adds dimensional stability and cushioning for enhanced performance and safety. The non-directional surface helps maximize player speed and athleticism.
