

## Board Member Montgomery Resigns

**Boyd R. Montgomery**, CSFM, resigned his position as STMA Treasurer effective immediately. Montgomery has taken a new position at The Toro Company to develop additional sports turf markets in the eastern U.S. and will be relocating to the Minneapolis area. He was in his fourth year of STMA board service. Per STMA bylaws, any professional member holding a board position who becomes employed in the commercial sector must resign their board position. Commercial members are eligible to hold two positions on the board: Commercial Vice President and the Commercial Representative. Montgomery also resigned from the The SAFE Foundation's Board of Trustees.

President Mike Trigg, CSFM has put in place a 90-day time period to appoint a replacement for the remainder of Montgomery's term, which is up in January 2006, and effect the transition. Trigg says, "Our Board will miss Boyd and the pas-

sion he has for the profession. He has been a strong contributor, not only in the financial area, but in all areas of STMA. We know that he will continue to advocate for the sports turf manager and wish him great success in his new position."

Montgomery had been the Sports Turf Manager for the Sylvania Recreation Corporation for which he oversaw a 135-acre park, 30 baseball/softball diamonds, 300 acres of grass, 25 soccer fields, four lacrosse and flag football fields, and 4.5 miles of the university bike trail system.

He is a Certified Associate Parks & Recreational Professional. He obtained his Associates Degree from Owens Community College and graduated from the Parks and Recreation Maintenance Management School conducted by North Carolina State University.

## STMA Welcomes New Members

STMA's new member drive and renewal for current members began in October for 2005. Following is a list of those new members who joined STMA for this year. Please welcome them with an email or a

telephone call and look for those in your area at your chapter events and turf field days. Their full contact information is on the members-only side at [www.sportsturfmanager.org](http://www.sportsturfmanager.org).

Frank Unger, Physical Fitness Center,  
Ft Wainwright, AR

## The game must go on.

No more wet, muddy or frozen fields. Ever. Whether you play on grass or artificial turf, the Airfield® sports drainage system is for you. We move water 13 times faster and reduce irrigation requirements by up to 70% over any other system, with a Gmax rating up to 15% lower for enhanced player safety. And if that wasn't enough, our Airforce® system keeps your field cool during high temperature play and warm to prevent snow and ice buildup. With all that you have going on above your turf, isn't it time you thought about what you have going on beneath it?

QwikDRAIN® Fields deliver Value, Performance & Safety

## QwikDRAIN® SYSTEMS

### 4 1/2" of rain won't stop the Rugby Tourney

"On May 3, 4 of 2003 Stanford University hosted the College National Rugby Championships at Steuber Field. Concerns were high as the fields had been deluged with over 4 1/2" of rain on the two days prior to the match."

*This was the true test for the newly reconstructed field because Stanford University opted to stay with native soil and install a new high performance QwikDRAIN® System.*

"Indeed, the rain continued heavy up until the time of the first match. We then played eight matches over two days. At the completion of the last game the field showed almost no evidence of any wear whatsoever."

"Your field at Stanford exceeds the standards we met at World Cup."

-Douglas Arnot, Pres/CEO, USA Rugby Football Union

"Since the installation of the system, we have not had to replace any turf on the field. The performance has exceeded our expectations."

-Dave Rulli, Manager of Stadium Operations, Jefferson County Schools

- Virtually invisible, permanent aeration & drainage system designed for your native soil profile
- Dramatically reduces downtime renovation and maintenance costs
- Convert your native soil field into a high performance QwikDRAIN® Field in one (1) week for as little as \$.75/sf.
- Turn your existing drain system into a high performance QwikDRAIN® System for as little as \$.35/sf.
- Solves issues related to "Reclaimed Water"

# Enkamat Plus®

Your Sideline Protection Solution

When asked if he would recommend EnkamatPlus to his colleagues **Ross Kurcab**, Turf Manager for the **Denver Broncos** replied,

*"Absolutely! It simply protects the grass better. It is softer for the players and easy to deploy. Any added expense would be saved in the first year from little or no grass repair."*
