TriWave 60 OVERSEEDER

NEW

The next wave in overseeding is here!

The patent-pending TriWave™ 60 overseeder is perfect for rejuvenating heavily-used sports fields – allowing ongoing overseeding with minimal disruption to play. Here's how:

- Three independent floating heads seed both low and high spots.
- WaveBlade™ technology optimizes slit width for improved seed-to-soil contact with minimal turf disruption.
- Special seed delivery system puts seed directly into slit, increasing germination with reduced waste.
- Infinite depth adjustment allows tools-free in-field adjustments.
- 1-1/2" blade spacing increases germination with fewer passes.

Experience the TriWave difference.

Supreme-Green™ Turf Growth Cover

Supreme-Green is a multi-purpose turf growth cover made of a specially designed material to provide early green-up, accelerated germination and winter protection. The Supreme-Green cover encourages root development and rapid growth while extending your spring and fall seasons.

Supreme-Green turf growth cover is specifically engineered to promote earlier openings by 2-3 weeks.

- Reduces seed loss
- Promotes earlier root establishment
- Accelerates Germination
- Reduces frost and ice-damage
- Porous to allow water and air circulation
- Mildew and rot resistant
- Quick turf repairs

Specifications:

- Made of tough woven non-coated polyethylene material
- UV treated for long life
- Green tint for best heat build-up
- One piece construction
- Comes complete with anchor pegs and storage bag
