Capture your history now

Capture Your Chapter History NOW is one of STMA Chapters’ Best Management Practices. As the STMA affiliated chapter network grows, chapters are sharing ideas with each other on what is working for them in membership, sponsorship, administration – virtually any activity with which chapters are involved.

The Gateway Chapter has a unique idea that goes beyond preserving its history to making certain it captures history as it happens. Of course, the 8-year old chapter is safeguarding all of its historical documents to-date, i.e. original bylaws, meeting minutes, newsletters, etc., but it is adding an element to that stockpile. The chapter is having each President detail in writing the key events, happenings, and milestones during his/her presidency. This “snapshot” of each President’s term will become an important historical reference for the chapter. Since the Gateway Chapter is still relatively young, it is having each of its previous presidents “catch them up” so there is a complete record of Presidents’ perspectives.

Consider implementing this process and add a new dimension to your chapter’s history.

Supreme-Green™
Turf Growth Cover

Supreme-Green is a multi-purpose turf growth cover made of a specially designed material to provide early green-up, accelerated germination and winter protection. The Supreme-Green cover encourages root development and rapid growth while extending your spring and fall seasons.

**Supreme-Green** turf growth cover is specifically engineered to promote earlier openings by 2-3 weeks.

- Reduces seed loss
- Promotes earlier root establishment
- Accelerates Germination
- Reduces frost and ice damage
- Porous to allow water and air circulation
- Mildew resistant
- Fast self-repairing

Specifications:
- Made of tough woven non-coated polyethylene material
- UV treated for long life
- Green tint for best heat build-up
- One piece construction
- Comes complete with anchor pegs and tension band

TriWave 60 OVERSEEDER
NEW
The next wave in overseeding is here!
The patent-pending TriWave™ 60 overseeder is perfect for
rejuvenating heavily-used sports fields – allowing ongoing
overseeding with minimal disruption to play. Here’s how:
- Three independent floating heads seed both low and high spots.
- WaveBlade™ technology optimizes slit width for improved
seed-to-soil contact with minimal turf disruption.
- Special seed delivery system puts
seed directly into slit, increasing
germation with reduced waste.
- Infinite depth adjustment allows
tools-free in-field adjustments.
- 1-1/2" blade spacing increases
germation with fewer passes.
