Toro opens used equipment website

WWW.TOROUSED.COM is a one-stop website for pre-owned Toro turf equipment located at Toro distributors. The site includes off-lease inventory through the Toro Financing program, trade-in equipment and demo equipment. The website has been designed to be intuitive for the customer and easy to navigate. The customer is in the driver's seat, choosing the method of search by: product category, local distributor equipment inventory, or national equipment inventory. When looking for a particular piece of equipment, the customer can request a notification. As equipment fitting the request becomes available from inventory, a Toro associate will contact the customer directly.

New ZMaster diesel mowers

New Toro Z Master Z595-D zero-turn riding mowers 25-hp Kubota liquid-cooled diesel engines that burn fuel slower, produce more power from a given amount of fuel, and are less expensive to purchase after taking into account off-road diesel credits. With 12-gal. fuel capacity and 11.2 mph ground speed, these machines can help operators stay in the field and productive all day.

Cat skid steer loaders

The new Caterpillar B-Series Skid Steer Loader line offer increased capacity and significantly more power than the previous models that enable the machines to do more work in less time. All four B-Series loaders employ the anti-stall system and pilot hydraulic joystick controls that are easy to operate.

New Kubota tractor loader

Kubota has introduced a new B-series Tractor Loader Backhoe (TLB) compact tractor with added horsepower, loader-lifting capacity, and backhoe digging power and depth. Whether the job calls for a tractor with three-point implements, backhoe or loader applications, the B26 can take on all three applications.

Bobcat's loader

The Bobcat T190 compact track loader allows you to work more productively in soft ground conditions and minimize ground disturbance. Compact track loaders have greater pushing force and can lift larger loads than skid-steer loaders of the same size. The tracked undercarriage design distributes the weight of the machine over a large area, providing increased flotation and low ground pressure.

Infield floats

TurfTime Equipment manufactures a line of Infield Floats that levels the ground on infields. The smaller Model 60A Pull-Behind (60-in. width) is designed for pulling behind small ATVs and garden tractors. The larger Model 78 Infield Float with brushes and rippers is designed for tractors with 3-point hitch. Electric lift Model 78 pull-behinds are available.

"SanDevil" attachment

The new SanDevil attachment is designed to fill 1/4, 3/8, and 1/2-in. aerification holes and works in light topdressing, sand and crumb rubber into the canopy of both real and artificial turf surfaces by using "turbine-produced air." Units can improve the healing process of the turf when compared to drag mats and brushing.

Every time we overseed, the results were the same. It was always a slow process that tore up the turf and planted the seed at different depths. Now that we are using the Redexim Charterhouse Overseeder, our frustrations with seeding are gone.

This Overseeder works well at high speeds and can cover a lot of ground, yet it has no moving parts and does not tear up the turf. I really like how it consistently places every seed at the same depth, which means no more wasted seed on top of the ground.

We are very happy with our Redexim Overseeder because it has everything we were looking for: speed, precision, and no turf disruption. The machine will definitely save you time and money, not to mention the many frustrations associated with seeding.

Corey Witzman
Westwood Country Club, St. Louis, MO

PROVEN GROUND

Every golfer knows a well maintained course affects his game. That's why Redexim Charterhouse offers a complete line of professional equipment to keep your fairways and greens in top form all season long. For more than 20 years Redexim Charterhouse's Overseeders have set the standard in overseeding production and efficiency. Today, we offer 7 different models to suit your turf care needs.
