2009 Annual Report and 2010 Strategic Audit Results

Technology for Turf
The use of technology in turf management has become increasingly important. From GPS-guided mowers to precision irrigation systems, technology is helping turf managers optimize their operations and reduce costs.

Industry Outlook
The turf industry is expected to continue to grow in the coming years, driven by increasing demand for high-quality playing surfaces and the expansion of sports facilities.

STMA's Super Deal
STMA is pleased to announce a special discount on membership fees for new members who join before the end of the year.

Scheduling Payments
STMA offers flexible payment options for its members, including monthly payments and annual dues.
