

# Wet or Dry

## Pene-Turf Solves Soil Water Problems

IN WET WEATHER, Pene-Turf makes soil more permeable, aiding drainage and reducing runoff.

IN DRY WEATHER, Pene-Turf means better availability of capillary water to keep grass from drying out.

For total soil maintenance, you can't beat Pene-Turf Soil Treatment. Extensive university and independent tests prove Pene-Turf makes soil more permeable and less plastic. That means reduced erosion problems ...better drainage in wet weather and better moisture availability in dry weather...and better pesticide and herbicide incorporation.

Pene-Turf...a cost-effective, basic part of any good management program. For more information, see your Pene-Turf representative today!

2275-N State Road 1, P.O. Box 463, Bluffton, Indiana 46714

# Use Warren's® TerraCover™

**100% Polyester+ Ground Blanket  
to cover and protect  
your natural or artificial turf.**

It *breathes* naturally . . . assures free passage of oxygen, carbon dioxide, water and some sunlight so turf stays healthy, beautiful and green.

**TerraCover™ . . . for entire Sports  
Fields and Stadium Turf Areas**

**TerraCover™ is tough**, to withstand *heavy* traffic. Protects natural and artificial turf against crowd foot traffic, heavy portable grandstands, light towers, equipment trucks, trailers and TV camera runways.

**TerraCover™ is safe** because it replaces expensive, hard-to-handle plywood sheets and other materials that can smother, burn or crush natural turf.

**TerraCover™ also protects** *artificial* turf from being crushed . . . and from being damaged by cigarettes, liquid spills and other 'junk'. And, clean-up is easier and faster.

**TerraCover™ is easy to put down and take up** . . . can be ready for the crowds in far less time than plywood.

**TerraCover™ Bench Tarp for  
Bench Areas, Infield Areas, etc.**

**Finally . . . here's a solution** for protecting turf against damage from the cleats of football and soccer players, coaches and others moving along sidelines and in team bench areas. Keeps coaches and players cleaner, dryer *and* happier.

**TerraCover™ Bench Tarps take only minutes to install.** The leading edge has polyester binding tape (lock-stitched in place) and grommets every 3 ft. that help hold it flat to the turf (you also set the team benches right on the TerraCover™ fabric). Each 16 ft. x 75 ft. bench tarp rolls up to an 8 ft. wide roll (custom sizes are available for pro football and other special requirements).
