## Grounds for Ransomes.

Maintaining the meandering fairways of Oakland Hills at peak playing condition calls for a grass machine with high work capacity, low running costs and superb finishing qualities. Ransomes Motor 213D (shown here with Fairway Vac) offers a 7-foot cutting width that slices hours off the biggest mowing jobs. The rear-mounted diesel engine keeps fuel costs low and gives the operator a smoother, quieter ride. Any, or all three, of the rugged cutters can be put into or out of work in seconds by the touch of a lever. And that's grounds for seeing your Ransomes Bob Cat distributor. Or, call Ransomes, Inc., One Bob Cat Lane, Johnson Creek, WI 53038, (414) 699-2000.

Announcing  
the dawn of  
a new era  
in pythium  
prevention.  
Chipco® Aliette®  
FUNGICIDE

---

The first fungicide that helps  
your turf defend itself.

---

You've heard about it. You've read about it. And now it's here. New CHIPCO ALIETTE® fungicide for turf. And with it comes a revolutionary new way to stop the spread of pythium blight. Unlike conventional fungicides, CHIPCO ALIETTE stimulates a natural defense mechanism within each blade of grass. In doing so, it actually helps your turf defend itself against pythium blight.

CHIPCO ALIETTE also eliminates the need for costly, time-consuming watering in of fungicides. And that's important for two reasons.

First, watering in adds to the high humidity that favors pythium development. Plus, soggy turf can interrupt play. But CHIPCO ALIETTE goes on quickly and easily to keep your course in play.

Best of all, CHIPCO ALIETTE gives you long-lasting pythium protection at a down-to-earth price. Based on cost per day of control, CHIPCO ALIETTE is one of your best fungicide values.

This year, don't let pythium ruin your turf *or* your reputation. Call your turf products dealer today and ask for new CHIPCO ALIETTE. Rhone-Poulenc Inc., CHIPCO

VOLUME TWO, NUMBER FOUR

MAY 1986

## MAIN EVENTS

### 14 TENNIS—THE SPORT OF CHOICE

Tennis is played on a wider assortment of surfaces than any other outdoor sport. At the same time, tennis players want to try their games out on a wider variety of surfaces. Fred Allen of Seabright Lawn Tennis Club gives fellow sports turf managers a look at management of more than one type of tennis surface.

### 20 FIGHTING THE MUNI BLUES RANCHO PARK OVERCOMES BUREAUCRACY

While some municipal golf courses are being strangled by low budgets, bureaucracy and worker neglect, Rancho Park Golf Course in Los Angeles, CA, is booming with nearly 140,000 rounds in 1985. Superintendent Ken Novak explains how he can rebuild greens and beef up maintenance at a time when many courses are signing contracts with golf course management firms to regain control.

### 26 DAYTONA SPEEDWAY JOINS THE RACE FOR SAFE, QUALITY TURF

The only time someone uses Dick Hahne's four acres of lush bermudagrass is when he's in trouble. The Speedway infield benefits from a unique irrigation system designed by a motocross track designer whose main concern was dust control. In the minds of the track owners, the Daytona "football field" is worth every penny.

# When there's a lot on the line, professionals choose TORO!

## That's why TORO was a key performer at Munich, Montreal and Los Angeles

Stadiums that hosted three of the last four Olympic Games chose Toro 640 sprinkler heads for the vital task of irrigation when the eyes of the world were focused on their turf. No wonder! Toro 640s are *safe*, with a very small 2¼-inch exposed surface. And they install ½-inch *below* grade. They *pop up* 2¾" for efficient watering, then *fully retract* with heavy duty stainless steel springs. To top it all, these superior sprinklers are backed by Toro's 5-year warranty. Oh, about the *fourth* Olympic site, Moscow? Well, we really don't know, but we'd be willing to bet that the Russians wish *they* had invented the Toro 640! Toro, the leader in sports field and large turf irrigation products.

# OTHER FRONT MOWERS SEEM BACKWARDS IN COMPARISON.

Our front mowers have really come a long way in a short time.

Just two years ago our first series rolled off the line, and this year we're back with an expanded line of sophisticated machines. We have a new package of features (some exclusive, others simply top-of-the-line) that put our front mowers way ahead of the other guys.

For starters, this year in addition to our gas-powered models, we offer a liquid-cooled diesel model, the 22-hp F935. This field-proven engine features heavy duty design, especially in the block and crankshaft areas. Plus a full-pressure lubrication system to keep it running cooler for longer engine life.

You'll be running a lot cooler, too. Because features like hydrostatic transmission, standard power steering, and a new dual-pedal foot control, all go a long way to make this probably the easiest front mower there is to drive.

Combine those features with our new 76-inch wide swept spindle mowing deck (available

on the F930 and F935) and you can forget about ever having to trim. You can cut around any tree or shrub, and leave an uncut circle of grass only 14 inches in diameter. Or use the turning brakes and mow right around a fence or lamppost.

If you have to cut grass anywhere but a totally flat surface, and who doesn't, our front mowers have two exclusive features that are tough to go without. Differential lock will improve traction on slopes or ditch banks. And our weight transfer valve will keep

you cutting through long grass or in slippery conditions.

Of course, the best feature that we have to offer is our John Deere name. Which has come to mean quality and dependability. We stand behind our front mowers with a two-year limited warranty. And, in the unlikely event that anything should go wrong, you can go back to your local John Deere dealer. (Which shouldn't take long. We have so many commercial dealers across the country that there's probably one very close

to you.) If he doesn't have the part in stock, he'll get it for you in hours—not weeks—thanks to our unique computerized FLASH™ parts system. Because he knows that if your front mower isn't working, neither are you.

While space here is limited, the list of terrific features on our front mowers isn't. To find out more, just write John Deere, Dept. 75, Moline, Illinois 61265. Or call 800-447-9126 toll free (800-322-6796 in Illinois) for the name of the dealer nearest you. If you're in the market for a front mower, we challenge you to check out the other guys, and then look at us. We'll only look that much better in comparison.

Nothing Runs Like a Deere®
