

# Blazon®

SPRAY PATTERN INDICATOR

By Milliken Chemical

## All Spray Pattern Indicators Are Not Created Equal.

**“I’ve just put my finger on the difference between Blazon® and the dyes being sold for spray pattern identification. Can you guess which finger?”**

Blazon® is the only **NON-STAINING** and **INERT** spray pattern indicator in the world.

Your spray pattern indicator should be the least of your worries.

- \*Blazon® will not stain.
- \*Blazon® will not interfere with your pesticides.

There are many imitations, but only one original ... Blazon® by Milliken Chemical.

## Denser, darker green Manhattan II takes the bruises for your athlete

What goes up must come down . . . and that goes double for athletes' knees and elbows.

Improved Manhattan II perennial ryegrass has a built-in cushion developed through genetic improvement. The greater tiller density of Manhattan II takes the punishment athletes dish out, then springs back to retain its great-

looking appearance. All that toughness . . . with improved mowability to boot!

Manhattan II also provides a darker green color than the old standard Manhattan; improved disease resistance, drought and shade tolerance as well as fertilizer savings.

Manhattan II was developed to save on maintenance costs . . . but the *real* saving is on knees and elbows!

"Fall on the leader"

**Manhattan II**  
TURF-TYPE PERENNIAL RYEGRASS

Qualified turf associations can earn cash for turf research by saving Manhattan II blue tags. Contact your dealer for details.

## MAIN EVENTS

### 14 ST. LOUIS PARK CARRIES TORCH FOR U.S. SOCCER

The Soccer Capital of the U.S. and the King of Beers have joined together to provide a year-round base for soccer in this country. St. Louis Soccer Park is the dream of the St. Louis Youth Soccer Association and Dennis Long, president of Anheuser-Busch Inc. It is the first soccer-only facility in the U.S. with both natural and artificial fields. Pat Gray, a former golf course superintendent, keeps both surfaces in play regardless of rain, floods, and snow. The park is busy year-round with tournaments and clinics to help train future U.S. soccer champions.

### 22 AERATION TAKES ROOT IN SPORTS TURF

Poor drainage and compaction are the greatest foes of quality sports turf. Dr. John Harper explains how using aerators to maintain the underground half of the turf community increases the effectiveness of surface maintenance. This detailed story tracks the history of mechanical aerators and provides a comparison of the models on the market today. It's vital information for every sports turf manager to know.

# Club Car's New Carryall II

**Will Out-Tough Any Utility Vehicle In The Field.**

## Out-Perform

Exclusive Club Car features like the Fresh Air Intake \*System, Cable-Less Choke Assembly\*, and Synchro-Mesh transmission with Neutral "Lock-Out"\* combined with the Tilt Pickup Bed of Double Wall Construction\*, enable the Carryall II to out-perform competitors in every category.

## Out-Haul

With the largest pickup bed (50"x50"x11") and biggest gross payload (one-half ton) in the industry, the Carryall II becomes the most functional, practical and economical vehicle around. In addition to carrying passengers, tools, equipment, parts and packages, the Carryall II has a towing capacity of 1,000 lbs.

## Out-Pull

Club Car's 4 Cycle/341 cc Engine\*, the largest in the industry, gives the Carryall II the power to haul one-half ton loads without stress and vibrations. The 8.0 plus Gallon Fuel Tank\*, is also the largest in the industry allowing for more work hours per tank than any other utility vehicle.

## Out-Maneuver

The Carryall II is designed to maneuver in tight aisles and small spaces with a clearance circle of 20'.8", the tightest in the industry. The True Rack & Pinion Steering\* feature along with direct linkage and self-adjusting components provides a "power steering feel"

## Out-Last

The Carryall II will last and last. Club Car exclusives like the Rust-Free Aluminum Pickup Bed & Frame\* make the Carryall II virtually maintenance-free. The Double Wall Pickup Bed Construction\* of lightweight durable aluminum allows for a longer, more productive life span and a wide range of applications.

NOW, THE FIRST NAME  
IN FUNGICIDES IS  
THE LAST WORD  
IN CONVENIENCE.

INTRODUCING  
NEW CHIPCO®  
26019 FLO.

FUNGICIDE

The easy way to stop major  
turf diseases for up to  
four full weeks.

Thousands of golf course superintendents have discovered one important fact. You just can't beat Chipco 26019 fungicide for controlling turf diseases.

And now you can get all the advantages of Chipco 26019 wettable powder in a convenient flowable formulation. New Chipco 26019 FLO.

Like the wettable powder, new Chipco 26019 FLO offers unsurpassed protection against major turf diseases, including Helminthosporium Leaf Spot and Melting Out, Dollar Spot, Brown Patch, Fusarium Blight, Red Thread, Fusarium Patch, plus Gray and Pink Snow Molds.

Chipco 26019 FLO also delivers the same long-lasting residual control. In fact, both Chipco 26019 formulations protect your turf for up to 28 days.

With Chipco 26019, you also get the added benefits of convenience, no phytotoxicity, pesticide compatibility, low toxicity and no corrosiveness.

Wettable Powder or new FLO, it's easy to see why Chipco 26019 is the Number 1 name in turf disease control.

# Cross-country specialist

The Jacobsen 5/7 Ram-Lift Ranger covers a lot of territory, with a superior cut from start to finish.

Legendary Jacobsen performance...to go! The 5/7 Ram-Lift Ranger. Designed for incomparable agility on turf or on the road.

Simply raise the gangs hydraulically to create a sleek, eight-foot transport width that handles narrow service roads and bridges with ease. High flotation tires and heavy-duty frame give the Ranger true cross-country capability. Yet, the exclusive steady-hold mountings keep reels firmly in place during transport, to prevent damage caused by swinging reels.

Utilizing computer-aided design,

The Ranger incorporates CAD-system design for state-of-the-art performance

the frame steers reels through turns to eliminate skidding and streaking. Patented hold-down springs enable bi-directional pivoting reels to follow ground contours closely—even at higher cutting speeds, to provide a superior cut.

Tailor the Ranger to suit your application. Choose the exact number of gangs

you need to cut swaths from 7 to 15 feet wide. With your choice of reels: six-blade; ten-blade; or five-blade "Blitzer" for high-speed mowing. Our unique electric-solenoid package gives you total control at your fingertips. Or, utilize existing tractor hydraulics. Simply lower the gangs and move out!

For rapid transport from site to site...with a precision cut from start to finish...go with the cross-country specialist. The 5/7 Ram-Lift Ranger. Call your Jacobsen Distributor for more information. He'll be happy to arrange a free demonstration.

Lease and finance plans are available.
