ILLUMINATION BASICS

A free brochure from Hubbell Lighting Division answers most questions about sports-lighting systems from the field to the concession areas. The 32-page booklet explains the primary considerations necessary for uniform illumination, including lamp selection, proper aiming and light levels. A proper

combination of these provides athletes with the right light for games and provides spectators with a comfortable view.

Recommended lighting layouts for softball/baseball, football, soccer and tennis are included in the brochure, along with appropriate adjustments for Little League to professional competition.

In addition to sportslighting, information on illumination of concession areas, parking lots, ticket booths, locker rooms and restrooms is included.

per can be hydraulically dumped by the operator without leaving his seat on the tractor. The vacuum can be converted quickly to blow debris up to 15 feet.

The Blower-Vac housing is constructed of 1/8-inch steel and rides on standard golf cart wheels. It weighs 1,400 pounds empty. An override clutch stops the blower when plugged or jammed.

Swing SAFE™

TRIPLE SWING JOINT

A New Name on the Leader Board... from an "Old Pro"

- Full-circle Adjustments
- Excellent Field-tested Flow Characteristics
- No Over Torquing
- Pre-assembled Units Include 6" Nipple
- No Leaks
- Each Individual Joint Features Continuous 360° Movement
- Made in the U.S.A.

Tough. Durable. Built to take a pounding from inside or out. The Swing Safe Triple Swing Joint withstands the hammer of quick-closing valves or the instant impact of an errant mower . . . without leaking.

Installation is quick and easy, too. The Swing Safe Triple Swing Joint eliminates the problem of over torquing or bottoming out. And O-rings at each joint guarantee no leaks after the job is completed.

Manufactured in five sizes ($\frac{1}{2}$ ", $\frac{3}{4}$ ", 1", $1\frac{1}{4}$ " and $1\frac{1}{2}$ "), the Swing Safe Triple Swing Joint is available either as components or, for no additional cost, pre-assembled. The 1", $1\frac{1}{4}$ " and $1\frac{1}{2}$ " models offer the extra strength of Schedule 80 PVC. All models are available in either slip or threaded design.

29 IMPROVEMENTS IN 20 YEARS

We were the *first*—and constant improvements through the years have kept us by far the *best!* A few examples: textured, non-directional blades for more uniform footing...improved, high-density pad for better shock absorption...improved wear characteristics.

No wonder imitators have never caught up.

Want information about these and more than a score of other improvements? Call us toll free—800-358-8553—or write us at the address shown below.

CoreMaster. Your new aeration answer.

Move forward (not backwards!) with CoreMaster.

Great news for golf course superintendents in charge of greens, tees and fairways, and turf managers for athletic fields (football, baseball, soccer), and sport turf grass. It's CoreMaster 12, the world's finest hollow core aeration system, backed by five years of technology, engineering and experience by the professionals at GreenCare International.

For the first time ever, CoreMaster enables your turf grass staff to improve aeration methods, speed compaction relief and thatch control with a built-in variable depth and pattern control system, and the strongest power source.

CoreMaster is the most innovative and advanced hollow core aeration system on the market today. Hard working, fast and versatile on all natural turf grass surfaces, CoreMaster aerates easily and efficiently. The result stimulates natural turf growth, insuring a healthier, safer, and more beautiful grass surface.

Put these CoreMaster advantages to work on your field and enjoy the benefits of features like these:

fastest capacity ever and safest

- patented mechanical simplicity—fewer moving parts
- low maintenance and great reliability—built to last!
- touch control for coring depths and patterns with several tine sizes
- new state of the art "quadra-tine" system, never before available
- highest efficiencies by rapid change, a totally flexible system
- additional attachments, verticutting, seeding, core pick up systems and more

Be the first, find out

more about CoreMaster, the best answer today to meet your turf grass aeration needs.
