

EQUIPMENT PREVIEW

ROTARY SPRINKLER

A stainless steel sleeve is now available on Toro 610 rotary sprinklers for added durability in sandy or corrosive soils. The gear-driven, pop-up sprinklers can be installed as low as 1/2 inch below grade in parks, on fairways and athletic fields. A stainless

steel spring assures complete retraction of the sprinkler and resists prying up by vandals. The sleeve seal keeps out debris and helps eliminate stick-up problems in nearly any soil condition.

The brass and plastic gears, provide smooth, quiet operation along with the strength to withstand high pressure water surges. The top of the sprinkler in the retracted position is only 2 3/8 inches in diameter to help hide the sprinkler in the turf.

LINE MARKING MACHINE

The Advantage Plus/Engine Power Pack line marking machine is designed to provide an economical method to line all types of surfaces, including athletic fields, playgrounds and parking lots.

A completely self-contained unit, the power pack features a 1 1/2 hp, four stroke engine and a 4.25 CFM diaphragm compressor. One filling of the seven gallon stainless steel tank will stripe approximately one

football field. Additional features include four pneumatic tires on ball bearing steel wheels; all steel welded construction; adjustable spray head two-six inches; and left or right side spray.

ADVANTAGE FAST, EFFICIENT, LOW COST, LOW MAINTENANCE WAY TO TURFGRASS AERATION

Low energy aerifier

The AER-WAY turf aerifier is a low maintenance, low energy aerifier designed especially for hard compacted traffic and playing areas and sod establishment. It can be used for parks, sports fields, cemeteries, school grounds, estates, and wherever appearances are important.

There are several model sizes available to handle jobs large and small. The tines are available in either a 4 1/2 or 6 1/2 in. length.

The unique patented design fractures the soil between the tines enhancing the soil profile and its natural capillary action. This allows air moisture and fertilizer to get to the root system maximizing growth and greener turf.

The tufts of grass produced by the aeration disappear with the first cutting. The "AER-WAY" now comes standard with a full width weight box, tow bar and parking stands.

Contact your nearest HOLLAND office for the name of your nearest "AER-WAY" dealer.

Go With CHIKUSUI And Get Double The Features At Half The Price!

Rugged, Dependable and Versatile Chikusui Turf Utility Vehicles Give You The Power To Transport People & Materials in a Simple, Cost Efficient Way.

MODEL GX-20

- 2-seat Turf Utility Vehicle
- 16hp Twin Engine
- 3/4 Ton Payload
- Hydraulic Dump
- PTO (will accept all Cushman attachments)
- 4 Speeds forward/1 speed Reverse
- Syncromesh Transmission
- Shock Absorbers w/Ind. Front Suspension
- PTO & Hydraulic Dump Operated From Cab
- 3-Year Extended Warranty Available
- MSRP: \$6,700.00

MODEL GH-224

- Single Seat Riding/Walk-behind Vehicle
- 10 MPH Top Speed
- 7.5hp Engine
- Standard Features Include: Hydraulic Dump, Hydraulic Scissor Lift (to 8.5 feet), Hydraulic Outriggers, Removable Sides & Tail, Differential Lock
- 3 Speeds Forward/1 Speed Reverse
- MSRP: \$5,600

MODEL GX-16

- Single Seat 4-Wheel Drive w/Power Articulating Steering
- 10hp Engine
- 1/2 ton Payload
- 6 Speeds Forward/2 Speeds Reverse
- Hydraulic Dump Standard
- Enclosed Cab Optional (\$495.00)
- MSRP: \$5,900.00

MODEL GC-403B

- Rubber-Tracked Walk-Behind Wheel Barrow
- Manual Dump
- 1100 lb. Payload
- 3 Speeds Forward/1 Speed Reverse
- 7.5hp Engine
- 3 Beds Available
- MSRP: \$4,395.00

For season-long, full-course protection, base your disease control program on CHIPCO 26019 fungicide.

When it comes to season-long, full-course protection, more and more superintendents are building their disease control programs around CHIPCO 26019 fungicide. That's because CHIPCO 26019 fungicide offers more important features than any other turf fungicide.

First of all, CHIPCO 26019 fungicide provides unsurpassed control of all major turf diseases: Helminthosporium Leaf Spot and Melting Out, Dollar Spot, Brown Patch, Fusarium Blight and Red Thread. Plus, CHIPCO 26019 fungicide protects against Pink and Gray Snow Mold as well as Fusarium Patch.

Secondly, CHIPCO 26019 fungicide delivers the longest-lasting disease control you can buy. Just one application protects your turf up to four full weeks.

Based on cost per day of control, CHIPCO 26019 fungicide ranks as your best fungicide value. That makes it the ideal replacement for fairway disease control.

You'll also like the fact that CHIPCO 26019 is easy on the environment, with no phytotoxicity. And now you can choose between two convenient formulations—wettable powder or flowable.

This season, cover your course with the best in disease control. CHIPCO 26019 fungicide.

OFF-ROAD HAULER

The AMT 600 from John Deere carries

up to 600 pounds of cargo over all kinds of terrain. A variable-speed drive system eliminates the need for shifting and helps match traction to the terrain. A differential action allows the inside wheels to rotate slower than the outside wheels in a turn, lessening wheel skid and tire scuffing.

A 341 cc gasoline engine gives the hauler the power to carry 800 pounds and tow another 1,000 pounds.

JOHN DEERE

Circle 141 on Postage Free Card

as parks, golf courses and athletic fields, can now receive the same uniform, dense stand of turf as a sod farm without wasting seed.

Adjustable teeth loosen the soil and a leveling bar smooths it to prepare a good seedbed. Stainless steel hopper bottoms have perforated slides for more precise and economical control of seed flow, particularly bluegrass varieties. Two heavy-duty open-mesh rollers on a free-floating suspension help cover the seed and firm the seedbed at the same time.

The seeder attaches in minutes to any medium-size tractor with three-point hitch. It can be raised for transport from site to site. Controls are conveniently located to make seeding fast and simple.

They're playing our sod... again.
See us at Super Bowl XXII.

How Pacific Sod Won Super Bowl XXI... way before Super Bowl Sunday

Our Santa Ana hybrid bermuda sod was grown especially to match the drainage system of the Rose Bowl stadium with its sandy, fumigated soil.

It puts on a good show of winter color—with all the toughness and durability you expect from a pro.

And Pacific Sod leads the league in quality, service and reliability.

When the tough get going, look for the dense green resilience of Pacific Sod. We serve more stadiums* and athletic facilities than any other grower in California.

**Including Dodger Stadium in Los Angeles, Angel Stadium in Anaheim, Jack Murphy Stadium in San Diego*
