"I have only eighteen concerns when selecting my greensmowers."

Peter Smith, Superintendent
Shinnecock Hills Golf Club

“When you’re hosting the U.S. Open, the quality of your greens is going to be evaluated by the best golfers in the world and a national television audience. That’s why I use only Bunton mowers to maintain my greens here at Shinnecock Hills,” says Golf Course Superintendent Peter Smith.

Since he discovered Bunton mowers, Smith has purchased eight greensmowers and two teemowers. Here are some of his comments.

On the tournament:
“For three years before the 1986 Open I mowed my greens at 5/32” with 22” Bunton walk-behinds. For the tournament I mowed at 1/8”. The Bunton doesn’t have a floating head so I get a true 1/8” cut once I set and lock in the height. With the new Bunton tournament knife I can easily get down to 7/64” without digging into the green.”

On Bunton features:
“The powered rotary brush is a great feature. It stands the grass up before it’s cut to control grain and eliminate runners. I use grooved rollers for closer, more accurate cuts and verticut attachments for thatching.”
“The solid aluminum drive rollers on the Bunton machines give me firmer greens without compaction. They cut straight, since both rollers are powered, and I’ve never had a problem with the engines.”

On teemowers:
“My tees concern me as much as my greens. With Bunton I get a striped, walk-behind look, plus the efficiency of a 26” mower. After all, those TV cameras focus on the tees almost as much as the greens. They have to be in top condition.”

For at least eighteen more good reasons to use Bunton, write or call for our new literature and the name of your Bunton distributor.

Only CHIPCO ALIETTE fungicide translocates throughout your turfgrass for total Pythium protection.

If you’re like many golf course superintendents, you rotate fungicides to reduce the risk of disease resistance. But you still need a “foundation” product you can count on for effective, long-lasting Pythium control. And the name of that product is CHIPCO ALIETTE fungicide.

Unlike other turf fungicides, CHIPCO ALIETTE fungicide features a unique two-way systemic action. Once applied to turf, its active ingredient translocates downward and upward throughout each grass plant. The result: total disease protection from top to bottom.

In addition, CHIPCO ALIETTE fungicide offers you 21 days of Pythium protection from a single application. Even in hot, humid weather, CHIPCO ALIETTE fungicide stops Pythium before it gets started.

Best of all, CHIPCO ALIETTE fungicide delivers long-lasting pythium prevention at a down-to-earth price. In fact, CHIPCO ALIETTE fungicide is one of your best fungicide values based on cost per day of control.

This year, discover the fungicide that’s in a class by itself. CHIPCO ALIETTE fungicide.

12 MODERN STANDARDS INCREASE PRESSURE ON TURF DISEASE CONTROL

As maintenance standards and use levels increase, sports turf no longer has the time or ability to defend itself naturally against diseases. In many cases, once symptoms appear the battle is partly lost and some damage is inevitable. To have a tight grasp on his job, the sports turf manager must have some control over turf diseases. He must have a plan in case weather and use conditions tip the scale in favor of diseases.

16 NEMATODES INVITE DISEASES

If you are following all the recommendations to control summer diseases and you still can’t seem to beat them, there is one more test to make, especially if your turf is growing in sandy soil. Have your soil tested for nematodes. These microscopic worms pierce turfgrass roots weakening them and providing an entryway for fungi. A nematode specialist gives tips to detecting, controlling and avoiding nematode problems in turf.

20 RENOVATING HYBRID BERMUDA GRASS BY SPRIGGING AND STOLONIZING

No turfgrass takes the heat and the beating of sports better than hybrid bermudagrass in the summer. However, too few sports turf managers give the warm-season grass the attention it deserves during the winter and spring. The vegetative turf may require periodic renovation by planting sprigs or stolons into thin stands. The problem is the use of the turf must be restricted for up to 90 days during the spring or early summer. Experts report that the results are worth the wait.

26 AMERICAN GOLF MANAGES ITS WAY TO 100 COURSES

In 1971, David Price started American Golf with three golf courses in southern California. Today, Price and his staff manage 106 golf courses across the country by a system that took years to perfect. Read this phenomenal story about the growth of the company and the development of its management structure.

Daihatsu spent 30 years testing, proving and driving over the toughest terrain on 5 continents. The result: the versatile, durable and economical Hijet.

With payload capacities of up to 1750 lbs., rack and pinion steering, MacPherson strut suspension, 4-speed fully synchronized transmission and a minimum turning radius of 12 1/2 feet, Hijet has worked its way all over the world.

**FUELED BY GASOLINE OR LPG**

Every Hijet is powered by an efficient 547-cc, 3-cylinder, single overhead cam, water-cooled engine, delivering more horsepower than the competition without sacrificing Hijet's inherent quietness, efficiency and comfort. Now available in both gasoline and liquid propane gas (LPG) configurations, Hijet can handle any environment from Turf and Grounds, Airline Terminals, Aerospace installations, Nurseries, Resort Hotels, State and Local Municipalities, U.S. Military Bases and Industrial Sites.

**4-WHEEL DRIVE NOW AVAILABLE**

Steep inclines, mud, snow and ice are no problem for Hijet's all-new 4WD models. With a push of a button the option is yours; 2WD, 4WD, or a walking speed sub-transmission that allows you to maintain a constant 2 mph.

**HIJET MEANS VALUE**

Hijet's incredible quality, reliability and versatility, low cost of maintenance, less down time and low operating costs, all contribute to Hijet's incomparable value.

Combine the money you save with the higher productivity of your work force and you'll see why Hijet is the answer to your needs.

**ABOVE ALL: SERVICE**

Daihatsu is committed to your complete satisfaction. We back every Hijet with a parts and service organization capable of delivering within 24 hours. And with an ever-expanding network of Hijet dealers, Daihatsu will work just as hard as your Hijet.

To learn more about the amazing versatility of the Hijet product line, call us collect at our headquarters in Los Alamitos, California. (714) 761-7000. Today, Tomorrow, You'll think the world of Daihatsu.

IT'S TIME TO JOIN FORCES

After we launched sportsTURF magazine three years ago, sports turf managers started calling us up to ask how they could become members of the Sports Turf Managers Association (STMA). They thought that the magazine and the association were one and the same. They weren’t, but we were glad to help. After all, STMA’s mission and ours are the same — to help the sports turf manager be recognized for his vital role in both turf management and the business of sports. Why duplicate efforts or compete with each other when both of us could do more for the industry by working together.

I’m gratified to say that with this issue, sportsTURF magazine is “The Official Publication of the Sports Turf Managers Association.” The STMA board and Denne Goldstein, the publisher, have agreed to combine our resources where practical to move this industry forward — faster.

Each month, STMA will have its own column in the magazine to report its news, promote its events and generate interest in membership. All material in the column, called The Extra Point, is produced by the association. Views presented therein are those of the officers and staff of STMA.

We believe it’s very important for the magazine and the association to work together, but we also believe the two organizations must be able to express different views on important issues. That is why the column will be treated as an independent part of the magazine to provide an open forum for the association.

A desire for independence is shared by both STMA and sportsTURF. The STMA board wants you to know that its opinions will be voiced in The Extra Point. Opinions expressed in the remainder of the magazine are strictly Denne’s and mine. The opinions and views of any other organization or individual are also invited. We want to present all sides of industry issues.

We are pleased by STMA’s faith and trust in sportsTURF magazine. After fighting side-by-side in the trenches for years to accomplish very tough goals, the board, Denne and I feel close to each other. We have all accomplished things that many people felt were impossible. We have become partners in a mission to help inform the professional and we have learned to respect each other for those things we have been able to contribute to the industry. Today we share the same concept for the future.

The most important thing for everyone to remember as the sports turf industry grows is that we are no stronger than our weakest link. We have to help each other build the muscle and knowledge to claim our rightful place in the turf and landscape industries. The golf course superintendent and the stadium grounds manager need to help their peers at schools, parks and universities. By working together some of the roadblocks to safe, quality sports turf have already been removed.

The relationship between the magazine and the association could not have been more timely. There are major issues to resolve as quickly as possible. We have only begun to see the tip of the iceberg when it comes to water conservation, pesticide safety, and liability for injuries that occur on sports turf. We are highly vulnerable if we act separately. Together we have the resources and ability to establish and defend the importance of recreational turf management.

Remember: United we stand. Divided our detractors can pick away at us until there’s nothing left. The choice is obvious.

EVENTS
From the Super Bowl, to Your Local High School Stadium...

"Before, during and after the game, I rely on Parker sweepers."

George Toma, National Football League Natural and Artificial Turf Consultant and Chief Grounds Keeper for all 22 Super Bowls.

Parker Trailing Sweepers are the choice of professionals like George and Chip Toma, official grounds keepers for Super Bowl XXII. For maximum performance and high quality workmanship, they rely on Parker lawn care equipment, the dependable choice for homeowners and professionals alike.

Parker offers a family of five Trailing Sweepers for a wide range of lawn care needs. Join top professionals who demand the best equipment at affordable prices, and choose Parker Trailing Sweepers for dependability and performance. Parker products are available at competitive prices through a nationwide distributor network.

*Parker Sweepers also work great on artificial turf.*

PARKER SWEEPER COMPANY
Box 1728 • Springfield, Ohio 45501-1728
FROM THE EXECUTIVE DIRECTOR

It gives me great pleasure on behalf of the Board of Directors, officers, management and members of the Sports Turf Manager's Association to announce that sportsTURF magazine has been selected as the official publication of the Association.

sportsTURF is the first and only publication here in the United States designed and written exclusively for the manager of sports turf. Call it hindsight, foresight or just persistence, but the idea and the realization of the publication was conceived by the publisher and president of Gold Trade Publications, Inc., Denne Goldstein.

Bruce Shank, associate publisher and executive vice president of Gold Trade Publications, Inc., has long been a supporter and promoter of STMA. In STMA's early years Bruce was very instrumental in securing advertising and commercial affiliate memberships to assist in sponsoring STMA's first educational programs. He further designed and distributed the first STMA membership application forms and wherever he travelled spoke positively about the young, struggling organization.

Through the efforts of Denne and Bruce the sports turf industry has prospered, moved forward, and become a force to be recognized in the green industry throughout the United States.

I would be remiss if I didn't mention Harry Gill, director of buildings and grounds for Milwaukee County Stadium, the granddaddy and founder of the STMA. He had great vision and a dream that individuals who maintained and cared for athletic turf would one day join together to share knowledge, ideas, and compare methods of operation and the 'tricks of the trade.' He wanted to provide sports turf managers with the opportunity to learn new information, gain stature as professionals and be recognized for the efforts that they were performing. This man of vision is kind, gentle and humble, but yet a driving force behind the STMA concept.

In 1980, Harry shared his visions and dreams with other sports turf managers through notes, Christmas cards and telephone conversations. In a concerted effort in early 1981 Harry Gill, Dick Ericson, Tony Burnett, Dr. Bill Daniel, George Toma and others gathered at the Midwest Regional Turfgrass Conference held at Purdue University where STMA was established. They developed a constitution, bylaws, and held elections and the dream, vision and concept came together and STMA was born.

STMA became an independent organization in 1984 with a total of 60 members and established an office in Ontario, CA. One year later STMA was granted non-profit corporation status and membership increased 300 percent. Today the main office is in Upland, CA. We have almost 800 members and a full-time employee, Melissa Merritt.

We publish a quarterly newsletter, sponsor four conferences and trade shows, provide scholarships and research grants, provide knowledge, education, good will and professional status to members. Now we have entered into an agreement with Gold Trade Publications to provide our membership with an official publication. We have come a long way in a very short time—but we're just beginning, the future is yet to come, the potential is unlimited. The teamwork between STMA and sportsTURF appears exciting.

Kent Kurtz, Executive Director

ROKOSH APPOINTED TREASURER

George W. Rokosh, manager of buildings and grounds, College of DuPage, Glen Ellyn, IL, has been appointed treasurer by STMA President Mark Hodnick to fill the unexpired term vacated when Sam Monson resigned recently. Rokosh has been instrumental in making the Midwest Sports Turf Institute successful and has contributed much time and effort toward making the association successful. The College of DuPage is one of the largest community colleges in the United States with over 30,000 students.

SPORTS TURF SCHOLARSHIPS

The STMA presents a number of scholarships each year to exceptional college students preparing for careers in sports turf management. The next scholarships will be presented during the annual meeting in Dodgertown in January 1989. Students should contact STMA for information on qualifying for one of the scholarships this summer. STMA urges professors and teachers of turfgrass management to notify their star students about the scholarships. Faculty opinions are an important part of the selection process.

CATCH THE ACTION

Mark your calendar

June 22 - 3rd Annual Midwest Sports Turf Institute
College of DuPage, Glen Ellyn, IL.
8:00 A.M. - 3:30 P.M. - Seminars, On-Site Demonstrations, Trade Show Exhibits - Keynote Speaker - Billy Williams, Chicago Cubs Hall of Fame Player. Contact: Susan Glasgow/Nancy Thomas, (312) 858-2800, Ext. 2770.

July 12 - 1st Eastern Sports Turf Institute
Holy Cross College, Worcester, MA.
Held in conjunction with the Professional Grounds Management Society.

8:00 A.M. - 4:30 P.M. - Seminars on Landscape Maintenance, Sports Turf Management - the Basics and Advanced, On-Site Demonstrations, Trade Show Exhibits. Contact: Melissa Merritt, STMA, (714) 981-9199 or Jim Long, Holy Cross College, (617) 793-3477

January 13-15, 1989 - STMA Annual Meeting
Dodgertown, Vero Beach, FL
STMA's Annual Meeting, Conference, Awards Banquet, Trade Show and On-Site Demonstrations. An exciting experience at one of the premier spring training sites - 27 holes of golf, conference center, guest rooms. A once in a lifetime experience. Plan now! Contact: Melissa Merritt, STMA, (714) 981-9199.
