

# Pre-register for a Mauget seminar and save \$10.

Sign up now for a 1988-89 Mauget seminar and trim \$10 from the registration fee of \$45 per person.

Mauget Micro-injection seminars are designed to help you save trees. Each seminar discusses tree health and care. Topics include tree nutrition, insect and disease control, and application procedures.

Seminars and workshops are open to all arborists, city foresters, lawn care firms, landscape architects and contractors, golf superintendents and grounds managers.

Complete the coupon below. Send it to your nearest Mauget distributor.

# The Ultimate Turf Team

## **CORE MASTER 12** Fits All Tractors

### The Ultimate Aerator

GreenCare has combined high-tech engineering and simple design to produce the strongest, most versatile and efficient aerator on the market today. Vertical aeration combined with variable pattern, variable depth and a variety of tine types and sizes provide today's Turf Specialists with the tool they need to tailor aeration to their requirements.

### Core Collection System

- Simply attaches to rear of CoreMaster.
- Auto-reset on next aeration pass.
- Removes cores as you aerate and automatically dumps cores at the end of each run.
- One man can do the work of four.
- No other expensive machines or operators required.
- On golf greens, play can continue during aeration.

## **SPREAD MASTER**

### The Ultimate Topdresser

GreenCare engineering leads the way in Turf Equipment Innovation again:

- All hydraulic drive.
- Tubular steel and zinc annealed sheet metal construction.
- Roller drum eliminates conveyor belt problems.
- Internal rotating baffle prevents "material surge" at the start of each run.
- Independent control of brush speed, drum rotation and gate opening provide precise rate of application.
- Flared top for easy filling with front-end loader.

# Brouwer™

the "best buy" in transportable reel mowers.

## Dollar for dollar, feature for feature...no competition.

Available as 5-gang or 7-gang units and as a Fairway Model for that extra fine quality cut and lightweight mowing demanded on fairways.

The standard mower is ideal for the roughs on golf courses, with its easy "quick height of cut" adjusters, and also for parks, recreation fields, school boards, municipalities and turf growers.

Hydraulic or manual lift for easy transport or storage.

Brouwer™ mowers offer outstanding value and important features:

- Proven positive "no slippage" drive, with no heavy wheels, gears or expensive hydraulic components.
- Low horsepower requirements
- Lightweight, but strong, means less compaction
- Rough and fine cut models
- Economical and easy to service and maintain
- Proven superior performance in varied types of grass and conditions especially in the wet

### Options include:

- 4, 5, 6, 7 or 8 bladed reels
- Track removal brushes
- Backlapper

For more information call your Brouwer™ dealer...TODAY.

# ROOKIES

## PRODUCT UPDATE

### MOISTURE SENSOR

The Toro Company Irrigation Division has introduced a Soil Moisture Control System that they claim will reduce irrigation-water consumption by an average of 50 percent while maintaining excellent turf quality.

The system is designed to tell the irrigation controller when to stop irrigating rather than when to start. The heart of the system is a Cuming-type 4-EC ceramic soil sensor. It is completely inert, self-compensating, permanently calibrated, and maintenance-free.

The unit is manufactured to dehydrate at a preset tension level close to the soil's moisture capacity. This process radically changes the output of the sensor, which sends a signal to the irrigation controller when the soil is moist enough. This eliminates the need for controller reprogramming because the sensor automatically adjusts to climate and seasonal changes.

What puts you  
in the groove  
for greener lawns?

**ANSWER: The Ryan Matabay® Overseeder:** It feeds seeds directly into the groove it cuts for maximum germination and greener results. It's the only changeable overseeder that gives you the flexibility to power rake, overseed, or do both at the same time. For all the facts, return the reader service card in this publication today.

# Affordable Family Housing

Your choice! Our family of Mark Series controllers offers a variety of affordable, functional housings. Select from U.L. rainproof cast aluminum, economical plastic, or heavy-gauge steel, free-standing or pedestal mount, to fit every application.

From 6 to 30 stations, the Mark Series of microcomputer controllers provide an un-matched array of family characteristics. Take programming for example. Our Mark controllers feature a function selector dial and large pushbuttons to reduce operator confusion and cut training time. Plus the large Day-

Bright™ LED display clearly shows time, date and program values. And when you know how to program one Mark controller, you can program all Mark Series controllers. Try that with the competition!

And behind our functional face-plates, we've packed a lot of talent. Such as accurate timing, multiple daily start times, independent watering programs, weekday or interval calendar, semi-automatic and manual operation, test program, surge protection, short sensing circuit, and battery back-up.

For the up-close and personal story on our family of Mark Series controllers, call or write today. Better yet, ask for a demonstration. (214) 278-6131 FAX (214) 271-5710

◀ MRMP pedestal shown with lockable, U.L. rainproof, heavy-gauge steel housing.

◀ SRMP pedestal shown with lockable, U.L. rainproof, aluminum housing with flip-up lid.

E-Series plastic housing features viewing window, slide-up cover. For indoor use. ▶
