

bobcat LOADERS

Choose from different model sizes, with operating capacities ranging from 600 to 4000 lbs.

P.O. Box 6019 • Fargo, North Dakota 58108-6019

TAKE A TURN FOR THE BEST

Turn out more work and return more profit to your business with a versatile Bobcat skid-steer loader. Bobcat loaders offer a wide variety of attachments to help you do your job better, whether it's loading, grading, excavating or sweeping. Choose from different loader model sizes, with operating capacities ranging from 600 to 4000 lbs. to fit your needs.

Regardless of size, all Bobcat loaders are well-built and offer outstanding agility in tight areas, attachment versatility, rugged durability, easy maintenance and operation, reliable parts and service, comfort and top performance.

Bobcat loaders. Take a turn for the best in performance and value. 

Selected by Fortune Magazine as one of America's top 100 products.

bobcat TRENCHERS

THE WORLD'S MOST VERSATILE TRENCHERS

Designed for more uses, with lower equipment costs!

If your work includes a wide variety of tasks, you need a service line trencher with a new dimension. The fully hydrostatic drive Bobcat 3020 Series trenchers are the world's first true multiple attachment trenchers, featuring Bobcatch™, a revolutionary quick-attach system.

The Bobcat 3020 Series trenchers are the only 30 hp class units equipped with liquid-cooled engines, and they're backed by the industry's best warranty.

Introducing
3x3

3 Trenching Positions + 3 Digging Depths = Maximum Versatility

3-in-1 digging boom (an industry first) allows 3', 4' and 5' digging depths in one boom with just the use of a grease gun and a small hand tool. 14-pitch interchangeable chain sections extend the digging chain for greater versatility.

Introducing a powerful new force in riding rotary mowers.

Now there's more to Cushman® Front Line® Mowers than top cutting performance. More power. More operator comfort. More endurance.

Now there's the new diesel-powered model Cushman 807.

Its totally integrated power train and new hydraulically-powered steering gives you unmatched performance over the long run. The 807 dispatches thick, wet grass on tricky maneuvers around obstacles without losing

ground speed. No other rotary mower gives you a cleaner cut.

At the heart of the new, four-wheel 807 is a powerful 21.5 horsepower, 3-cylinder Kubota 950 diesel engine. We've also included a heavy-duty Donaldson air cleaner and a new, heavy-duty Cushman PTO clutch to keep your new Cushman Front Line running longer. A complete family of Cushman Front Lines and a wide range of accessories are available to meet all your needs all

year 'round. Choose a 3 or 4 wheel design with 60- or 72-inch side or rear discharge mower deck. Or add the exclusive Cushman Grass Caddy™ system, which lets you cut, catch, and hydraulically dump 16 bushels of clippings without leaving the seat.

For a convincing demonstration contact your Cushman dealer today. Or call toll-free: 1-800-228-4444.

VOLUME FIVE, NUMBER 12

DECEMBER 1989

SECOND ANNUAL PRODUCT DIRECTORY

You are holding in your hands the second annual sportsTURF Product Directory. The directory is the result of five years of research and information gathering. Never before has such a targeted and comprehensive resource been published. It is truly unique for the sports turf industry.

The entire December issue is devoted to one purpose; helping those responsible for large, recreational turf areas locate products they need quickly. Not only does the Product Directory list manufacturers of standard turf maintenance products, it also includes manufacturers of products designed specifically for sports turf managers and golf course superintendents. This single, comprehensive directory can help you obtain product information quickly and easily.

You'll want to keep this directory as a handy year-round reference. We encourage you to contact manufacturers to obtain their latest catalogs and the names of their local distributors. Tell them you found about their company in sportsTURF magazine.

The directory is divided into two sections. The first half is a listing of more than 100 different types of equipment, chemicals, materials, and seed. The manufacturers or suppliers of each type of product are listed along with their city and state.

To find the address and phone number of these companies, go to the second section of the directory where they are listed in alphabetical order. Letters next to each company's name indicate the categories of products they make. There are five categories, as follows:

- C - Chemicals
- E - Equipment
- I - Irrigation
- M - Materials & Supplies
- S - Seed

As the sports turf market grows, more and more companies create products to make your job more efficient and effective. In future directories, we will endeavor to add these newcomers and to keep you abreast of their products. Since it is your directory, we are always anxious to hear your comments and suggestions to improve it.

Introducing the next generation in full-circle swing joints

Inlet and outlet fittings at no extra cost.

Absolutely no cracked fittings. No leaks. No lost time.

Our new Unitized Swing Joints come fully factory assembled. They're free of solvent welded joints. And the low cost will surprise you.

You get full three-way 360° action, so the standard 12" one-piece molded swing arm easily adapts to all installations.

And you get the reliable Lasco swing joint quality proven since 1982 in all kinds of

climates and conditions in over 250 golf courses worldwide. That kind of quality lets us back all our swing joints with a unique, unmatched Three-Year Performance Warranty.

Choose from 1," 1¼," or 1½" diameters. Your choice of 3 outlets and 4 inlets needed to fit your system — at no extra cost.

Write for details, or ask your distributor. You'll get the facts on the new generation — along with data on our Factory-Assembled and Assembly Kit Swing Joint models, too.

Make easier, faster underground splices. Dirt cheap.

No more messy goop or wasted material. No crimping tool. No bad splices. Just quick, reliable underground electrical splices. Dirt cheap.

3M DBY/DBR direct bury splice kits are perfect for all underground projects of 30 volts or less. Each kit contains all you need for two splices. Simply strip the wires, twist on the Scotchlok™ electrical spring connector, insert wires to the bottom of the gel-filled tube, snap closed the cover, and bury.

Now in two sizes. Each kit contains two gel-filled insulator tubes and two Scotchlok™ electrical spring connectors.

Now in two sizes: DBY for 2-5 #18 AWG through 2 #12 AWG; and DBR for 5 #16 AWG through 3 #10 AWG.

DBY/DBR splice kits are great time savers. And their reliable performance cuts callbacks. See for yourself. Pick up a couple at your irrigation distributor and start making underground splices easier than ever, faster than ever. Electrical Products Division, 3M Austin Center, Building 130-4N-40, P.O. Box 2963, Austin, TX 78769-2963.

Locke makes the cut...

at the finest playing fields around the world.

Locke Single

Locke Triplex

Locke Professional

On baseball, football, soccer fields and golf courses, Locke's cutting edge, a unique scissor action, produces a clean and uniform cut unmatched by the competition. While other mowers shatter or shear the grass, Locke reel mowers actually cut each blade of grass cleanly and consistently. The result is a uniform playing surface that maintains its healthy, green appearance and helps improve the quality of play.

Constructed from forged steel frames, machined cast-iron components and precision carbon steel blades, Locke mowers have been proven season after season. Powered by durable cast-iron engines, Locke mowers are built to last more than 20 years. So make your next cut with a Locke... Choose from the *Locke Single*, when maneuverability is crucial on smaller grounds; the *Locke Triplex*, setting the standard for commercial mower performance, quality and durability for over fifty years; or, a riding mower, the *Locke Professional*, is ideal for the larger sports turf grounds.

For the name of your nearest authorized dealer, contact Locke today.

Professional Quality Reel Mowers

Since 1928

THE LOCKE CUT VS. A TYPICAL MOWER CUT

Each blade of grass is cut cleanly and at a uniform height, which means healthier, greener turf.

Other mowers shatter the blades of grass, leaving uneven ragged ends which turn brown and expose the turf to disease.
