

SUNSTOP

SUNSTOP PVC UVR BELLED ENDED PIPE marches into its second year of proven high quality ultraviolet-resistant usage in slope irrigation. Current laboratory tests show no significant deterioration in impact or tensile strength with the equivalent of 25 years in the sun, and is approved by NSF and listed with IAPMO.

SUNSTOP PIPE is manufactured in 1/2" SCH 40 to 3 inch. Spears Manufacturing produces a UVR fitting to be used with SUNSTOP.

U.S. Polymers, the manufacturers of SUNSTOP, has over 15 years of experience in the production of UVR products.

SUNSTOP is the first PVC-UVR designed to meet the needs of the wholesale distributor and the irrigation contractor.

SUNSTOP has been accepted virtually everywhere the need arises for a PVC-UVR pipe.

SUNSTOP as manufactured by U.S. Polymers is the most technically advanced compound and pipe unsurpassed by any other products used for the same application.

SUNSTOP PVC-UVR is the premier Poly Vinyl Chloride Ultra Violet Resistance pipe on the market.

SUNSTOP is the first to offer Belled End Sch 40 PVC-UVR pipe.

Generate
Rich Green
Color
Without
Generating
EXTRA
Clippings

Now you can have rich, dark green grass, even when close cut, without using extra fertilizer and creating extra clippings. Major PGA Tournament course superintendents, athletic field managers and lawn service companies everywhere are using Multigreen to generate healthy, dark green grass without the yellow color commonly seen in heavily fertilized, close cut grasses. Multigreen is a chemically chelated iron and micro-nutrient product using natural sugars as the chelating agent. Results are fast and dramatic on all types of grasses.

ROOKIES

PRODUCT UPDATE

CORE DESTROYER

In one pass, aeration cores are pulverized and turned into topdressing with the Core Destroyer attachment for the Cushman Front Line tractor. The attachment can cover more than 2 1/2 acres in one hour at a tractor speed of five mph.

Two 30-inch-wide reels with steel flail tines are powered by a hydraulic pump connected to the tractor's PTO shaft. Tine depth can be adjusted from one inch above the surface for pulverizing to 3/4 inch below for

verticutting. Tine spacing is also adjustable.

Flexible mounting links for the reels permit the operator to pulverize cores over uneven terrain or berms without scalping. A bedknife-type mulching bar and front deflector on each reel ensure full destruction of cores in one pass.

All adjustments can be made without the use of tools, including pitching the heads up for clean out.

SCOREBOARD

CLASSIFIEDS

CLASSIFIED ADVERTISING RATES: \$45.00 per inch payable in advance. One inch minimum. There are about 50 words per inch. Send copy with check for \$45.00 at least four weeks prior to issue date to: Classifieds, sportsTURF magazine, P.O. Box 8420, Van Nuys, CA 91409. Blind box numbers are available. Special borders and rules will be billed at display advertising rates. Classified ads are not commissionable.

SPORTSFIELD DESIGN, RENOVATION, AND CONSTRUCTION

Whatever your sport, whatever the level of play, and wherever the location, Sportsfield, Inc., can provide all the services required to meet your needs. Our team of experienced personnel can design, renovate or construct your playing fields. Do it right the first time! Call or write for our brochure, P.O. Box 615, Blue Island, IL 60406, (312) 371-0917.

DRAINAGE PROBLEMS?

Don't rebuild your sports fields. The Verti-Groove is an inexpensive alternative to improve drainage. Deep aerify and create sand slices six inches deep and one half inch wide without materially disturbing play. Call or write to:

The Ultimate Turf Team

CORE MASTER 12

Fits All Tractors

The Ultimate Aerator

GreenCare has combined high-tech engineering and simple design to produce the strongest, most versatile and efficient aerator on the market today. Vertical aeration combined with variable pattern, variable depth and a variety of tine types and sizes provide today's Turf Specialists with the tool they need to tailor aeration to their requirements.

Core Collection System

- Simply attaches to rear of CoreMaster.
- Auto-reset on next aeration pass.
- Removes cores as you aerate and automatically dumps cores at the end of each run.
- One man can do the work of four.
- No other expensive machines or operators required.
- On golf greens, play can continue during aeration.

SPREAD MASTER

The Ultimate Topdresser

GreenCare engineering leads the way in Turf Equipment Innovation again:

- All hydraulic drive.
- Tubular steel and zinc annealed sheet metal construction.
- Roller drum eliminates conveyor belt problems.
- Internal rotating baffle prevents "material surge" at the start of each run.
- Independent control of brush speed, drum rotation and gate opening provide precise rate of application.
- Flared top for easy filling with front-end loader.
