***When toughness and beauty count, why compromise?  
Specify A-34 BenSun<sup>®</sup>  
Kentucky Bluegrass Seed or Sod***

When you're looking for a top quality Kentucky bluegrass that stands up under heavy traffic, makes maximum use of fertilizers, is aggressive in its growth so it chokes out weeds, takes up to 65% shade and can be mowed to as close as half an inch... then you need A-34 BenSun<sup>®</sup>.

It's the hardy Kentucky bluegrass that's providing better, safer playing fields coast-to-coast in some of the nation's leading stadiums — including San Francisco's Candle-

stick Park, Denver's Mile High Stadium and Milwaukee's County Stadium, as well as many famous college and university stadiums.

For the professional groundskeepers that run these operations, there's no room for compromise. When toughness and beauty count, they go with the PROs — A-34 BenSun<sup>®</sup> Kentucky Bluegrass.
