

When It Comes To Sprinklers One Name Keeps Popping Up!™

K-RAIN

PATENTED ARC-SET

5 INCH POP-UP HEIGHT

RUBBER COVER

1 INCH INLET

35' - 62' / 20 GPM

The New K3...For Commercial Applications!

When new ideas turn into better products, people talk. And when that talk turns to sprinklers, one name keeps popping up. K-Rain. Where ideas in irrigation have been translated into patented features. Features the industry has come to value and respect in K-Rain's revolutionary K2 gear driven sprinkler.

Now these same innovative features are available to you for commercial applications in our new K3. The K3 features our patented Arc-Set Indicator, with 30 to 360 degree adjustability clearly indicated on the top.

In addition, the new K3 is equipped with a 1" inlet which provides higher flows and enables the K3 to cover larger areas including commercial properties, sports fields, schools, parks and playgrounds.

The K3's standard features include a rubber cover, check disk, and 5, 10, 15, and 20 GPM nozzles (15 GPM nozzle pre-installed). And the K3 is available with your choice of a stainless steel or plastic riser.

When it comes to pop-up spray heads, residential sprinklers, or commercial sprinklers, choose the one name above the rest. Choose the great new Ideas In Irrigation

K
RAIN®

that keeps popping up – rising new K3. Another of the from K-Rain.
