

Sixteen scrimmages
nine band practices
three inches of rain
and a tug of war.

Play ball!

Shown above: Natural turf playing field reinforced by TURFGRIDS® fibers in base soil.

TURFGRIDS®

Improving your football, soccer and baseball fields is our game. Mixed into the top inches of root zone soil, TURFGRIDS increase the strength and divot resistance of your playing surface. Giving you great looking turf that weathers any storm. As many pro and college teams have discovered. All from Synthetic Industries. Distributed by Stabilizer, Inc. For more information, call 1-800-FIX SOIL.

Smart Solutions in Synthetics™
