PRODUCT SHOWCASE

Green Grass Dye and Paint

World Class green grass dye and paint is formulated to make worn and dormant turf look alive with a vibrant green tone. This product will not harm the turf, it will actually coat and protect the plant and enhance growth. Make your turf come alive, for all your turf paints and graphic stencils.

World Class Athletic Surfaces

The Right Tool for Clay & Turf

On grass sports fields aeration is possible without tearing the established turf. Guaranteed penetration in your hardest areas. (Play can resume immediately.) The AERA-VATOR® provides excellent results by reconditioning skinned areas or mixing top dressing. Penetration is controlled by varying PTO & ground speed. (Total infield reconditioning or scarify only.)

Creates much softer playing area increasing absorption and reducing run off. The quality of a highly maintained playing field significantly reduces the potential for injury to players.
